

Expansion starts

Georgetown plant expands

A Georgetown plant has embarked on a building program which will double its size by Dec. 1.

The expansion of Park Thermal Ltd., Todd Road, is the result of a move the firm took four years ago, said Brian Reed company president.

He told The Herald in an interview Thursday that when the firm first started in Georgetown, 10 years ago, it sold industrial salt baths for the heat treatment of metals and related metallurgical supplies.

But to survive, the company looked at other areas and came up with the technical expertise and engineering to become a manufacturer of large industrial furnaces fuelled either by gas, electricity, oil or propane the 35-year-old company president said.

The furnaces are made to order and leave the plant ready for installation.

The key to the success of the company Mr. Reed said, is

that it has become the only one-stop, heat-treatment supply house in North America.

Park Thermal Ltd. employs 15 persons. Mr. Reed estimated that when the expansion to 28,000 square feet is complete, about five more jobs will be created.

The company is also planning to enlarge its penetration of the United States market. It already supplies the Canadian market, he said. Mr. Reed declined to forecast the future of the company but said he was more optimistic than pessimistic about the future of the economy in general.

Trip to funeral ends in fatality

A trip to a family funeral ended in death for a Georgetown man and serious injuries for his wife as a result of a head-on collision near Grimsby late Wednesday evening. A Smithville man was also killed.

Dead are David G. Lyons, 49, of Moultrie Crescent, Georgetown, and Jack Schulten, 23, of Smithville.

Mrs. Shirley Lyons was admitted to the intensive care unit of West Lincoln Memorial Hospital Grimsby, with six broken ribs and internal injuries. A hospital spokesman listed her condition as stable and said she is "very comfortable as long as she doesn't move." They predict that she can be moved to a hospital nearer to home "probably this week."

The fatal accident occurred at 11 p.m. on Sept. 21 on Highway 20 just east of the Grimsby Road. Police report that the eastbound vehicle driven by Mr. Schulten swerved into the path of the Lyons car. Mr. Lyons was killed instantly.

Mr. Lyons a native of Dunville, Ontario, brought his wife and family to Georgetown 10 years ago. Bob, Ken, Bruce and Kathy all live at home.

Mr. Lyons has been service manager for Georgetown Chrysler since the business opened in 1973.

The funeral service was held at St. George's Anglican Church, Georgetown, Monday with interment at St. John's Anglican Church Cemetery in South Cayuga.

Besides his wife and family, Mr. Lyons leaves his mother, Mrs. Isobel Lyons, a brother Dalton, and a sister Dorothy (Mrs. A. Bradford) all of Dunville. His father predeceased him.

Nine industry development technology missions involving 61 Ontario participants last year visited England, Germany, Holland, Rumania, Sweden, Denmark and the United States to acquire new technologies applicable to their own products and processes.
