

The biggest stereo savings in town!

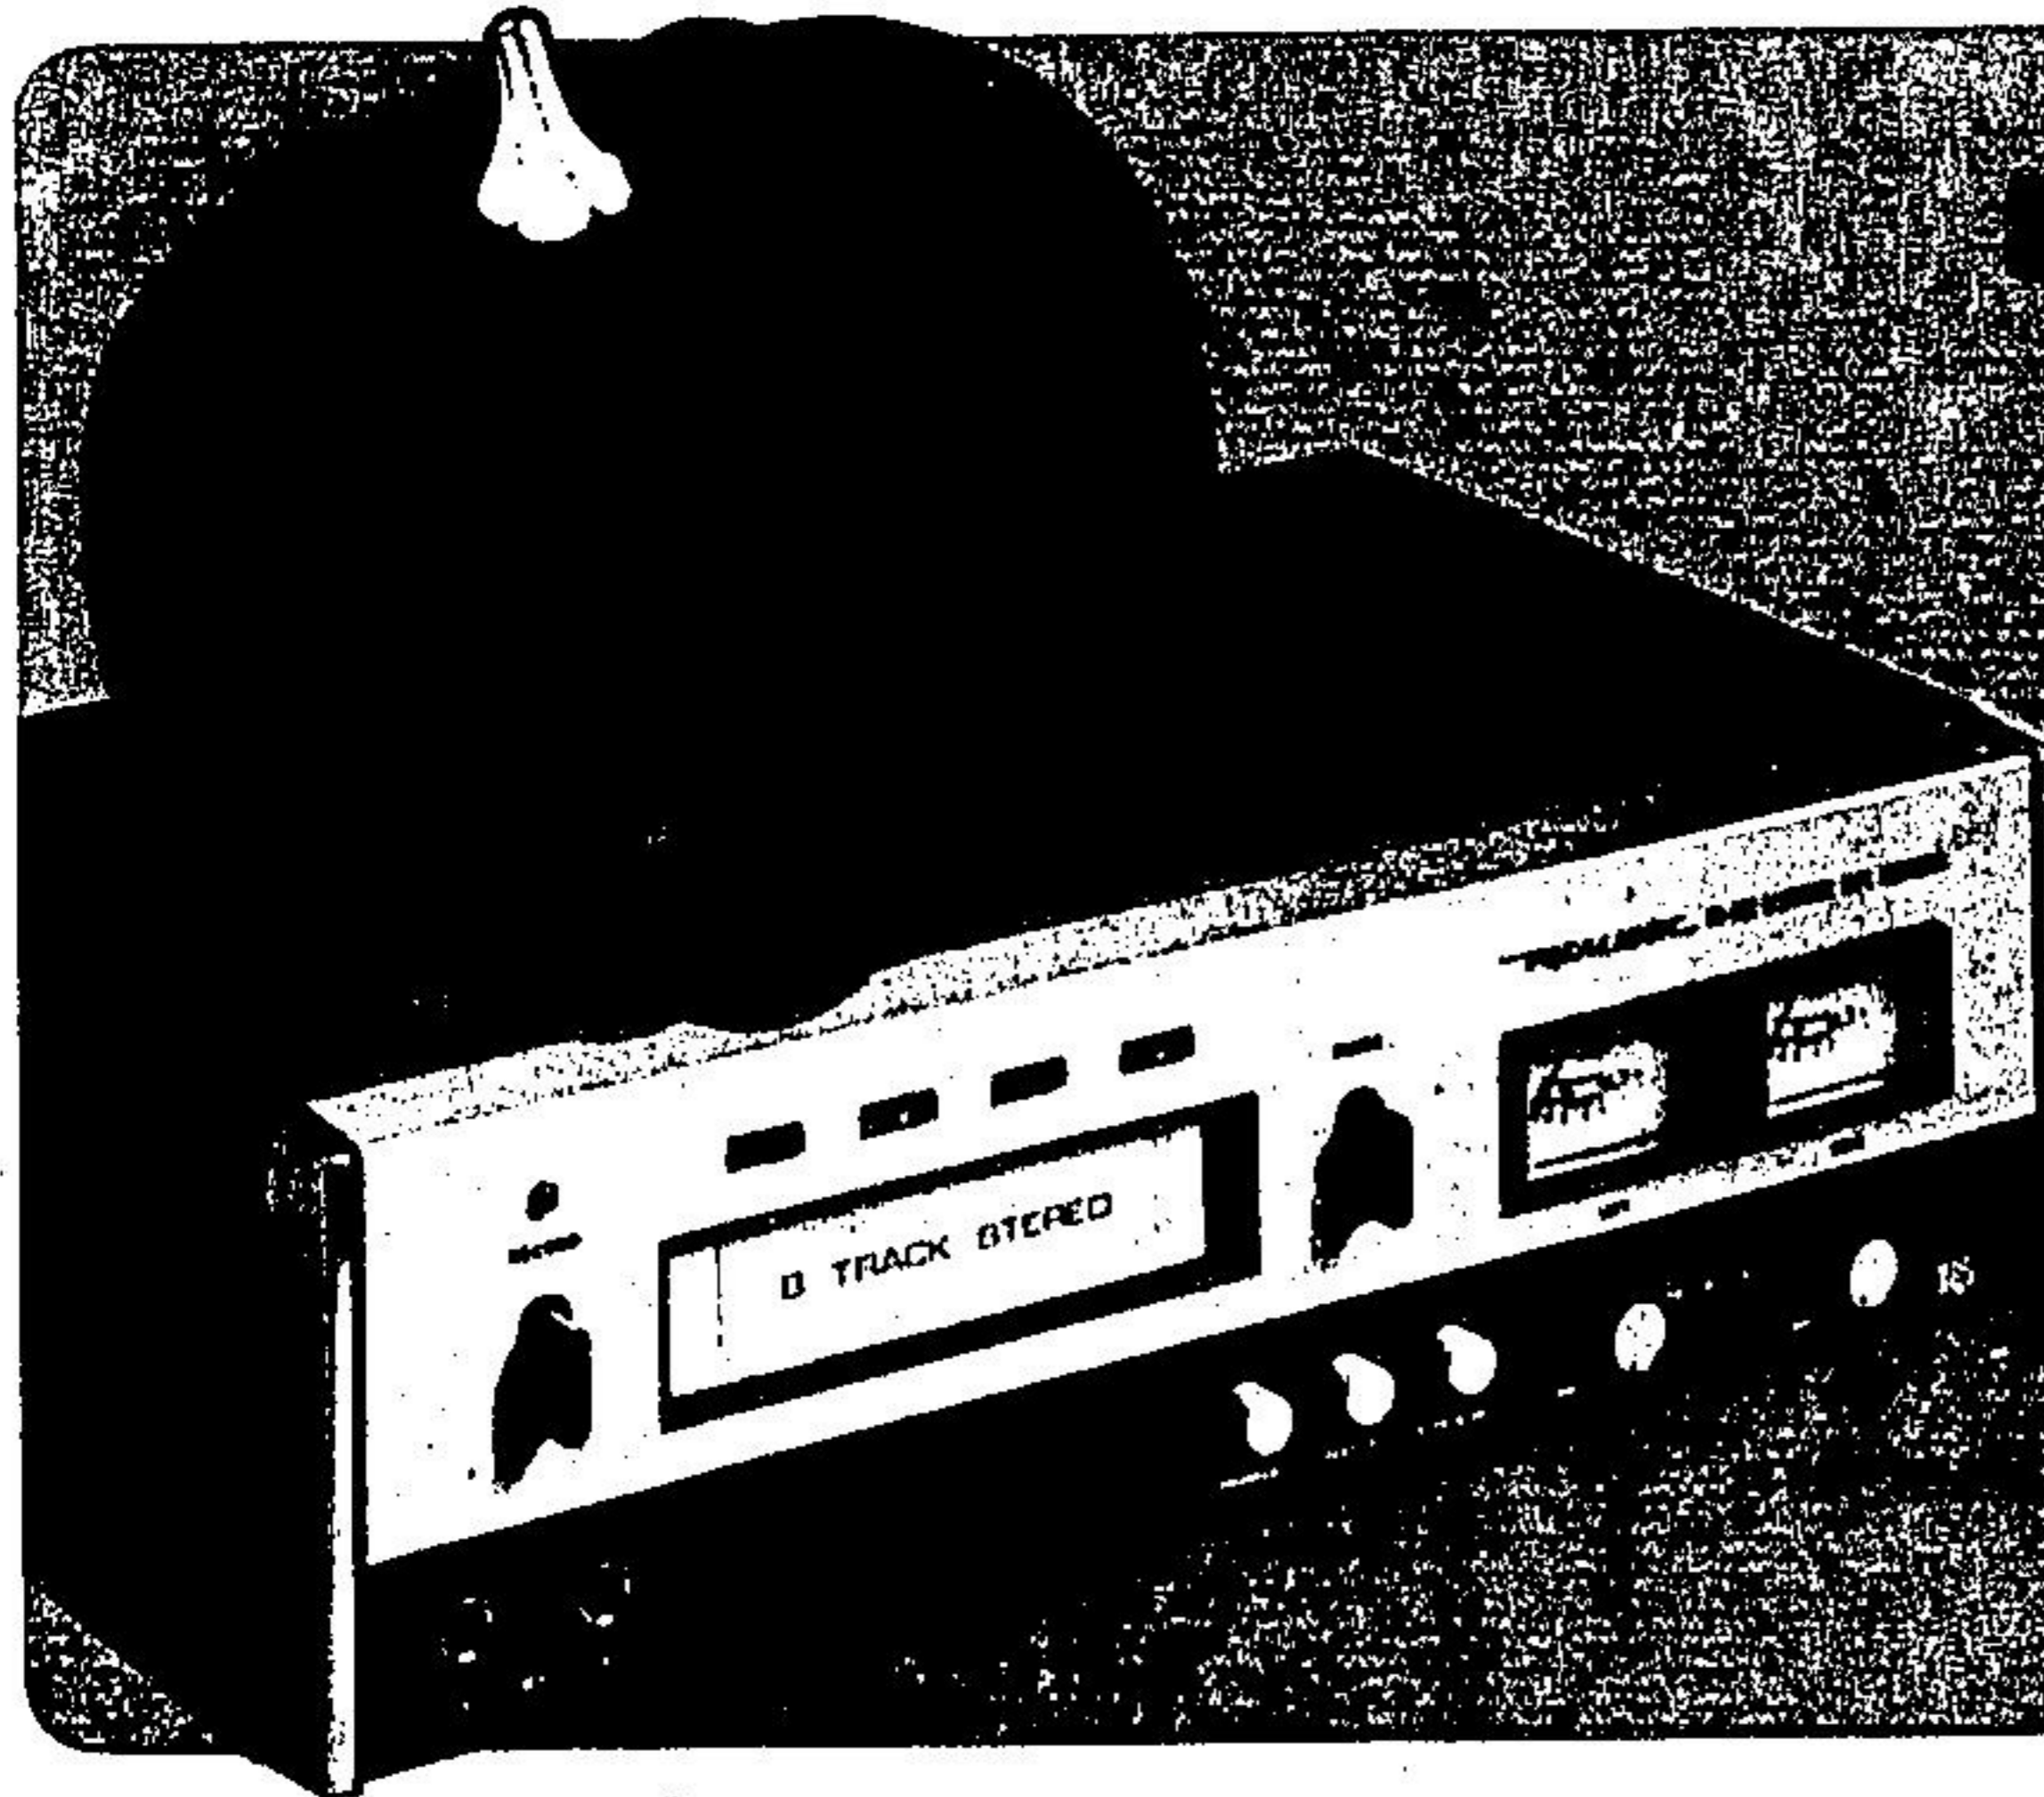

LAB-50 Belt-Drive Changer

- The same drive system used in costly manual turntables
- Multiple synchronous motor lets you forget about tone
- Fluctuations and wow due to noise and vibration
- Heavy precision-machined plate maintains accurate speed
- Light-tracking tone arm features microline scale for accurate
- adjustment
- Dual-range anti-skate is calibrated in both cental and milliliter
- scale • Downward-damped cue tone
- Plays 33 1/3 and 45 RPM
