THE SPIDER

During Mark Twain's days as a newspaperman, he was editor of a small Missouri paper. One day he received a letter from a subscriber, stating that he had found a spider in his paper, and asked if this was an omen of good or bad luck. Twain replied: "Finding a spider in your paper is neither good nor bad luck. The spider was merely looking over our paper to see which merchant was not advertising so that he could go to that store, spin his web across the door, and lead a life of undisturbed peace ever afterward."
