Dear Ann:  
Mrs. Claus and I are both feeling fine. That is a very nice picture of a Christmas present that you drew for me. You may see a present just like it under your Christmas tree on Christmas Day. Thank you for promising to leave me a snack. I am sure I will enjoy it as much as you will enjoy the presents I will be bringing you. Merry Christmas Ann!

Dear Kendra and David  
Santa has something special just for you on Christmas morning. I'm sure you'll be happy and delighted with the surprise I leave you. But I won't say what it is just now. I'd like to be at your house to see your reaction when you

see it. Be a good girl and have a Merry Christmas.  
Your friend  
Santa

Dear Santa Claus  
Please bring our presents one day later because my dad has to work Christmas day. How old are you? I am eight. My brother is three. For Christmas I would like a Barbie motor home. My brother would like smash up derby. With all our love  
Tiffany and Mark Coe  
XXXXXXXX

Dear Tiffany and Mark:  
I'm afraid you'll be getting your presents on Christmas Eve like all the other children but you don't have to open them on Christmas Day. You can wait until your dad comes home before you open them. As for how old I am well... I'm as old as Christmas, and I'll be around as long as Christmas is around. I hope you like the presents I bring you, even if you have to open them a day late. Merry Christmas, Tiffany and Mark!

Your friend,  
Santa

THAWING THE BIRD  
Whether you've decided on turkey for Christmas, or chicken, or duck, you must be taken to home to ensure safe thawing and cooking. Keep fresh birds in the refrigerator (not in the garage or outdoors in a shed) no longer than two to three days.

For frozen birds, there are two recommended thawing methods:  
1) In the refrigerator. Allow about two hours per pound, and keep for the original wrapper on the bird.  
2) In a cold water bath. This is a quicker method requiring no time per pound. Again keep the original wrapper on and change the water a few times during thawing. The cold water will keep the bird at a safe, sanitary temperature at all times while the bird thaws.

Cooking: Use a slow 325°F oven, and for a no-fad golden brown a meat thermometer is the best method, reaching the bone. When the thermometer reaches 180°F in the drumstick, the bird is done.

Carving: For easier carving, let the bird stand unadorned for twenty minutes before carving.
