

Buildall's HOMEMADE HAPPINESS

PRICES GOOD TILL Nov. 15

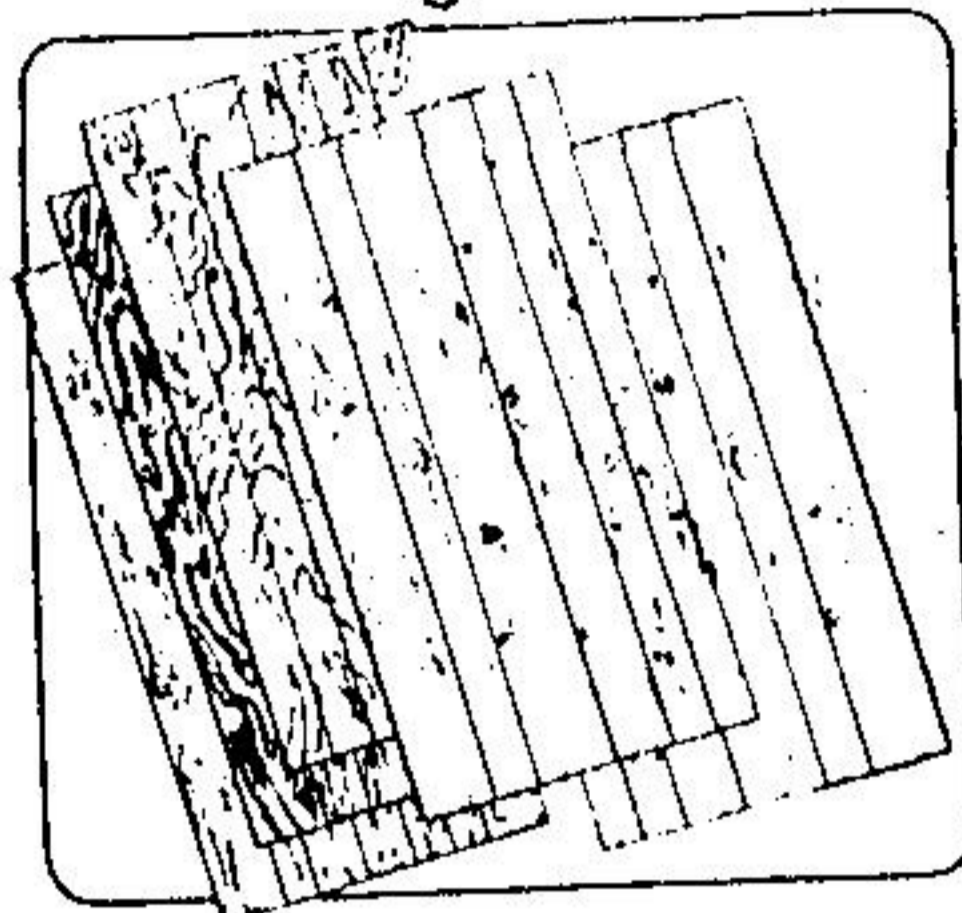

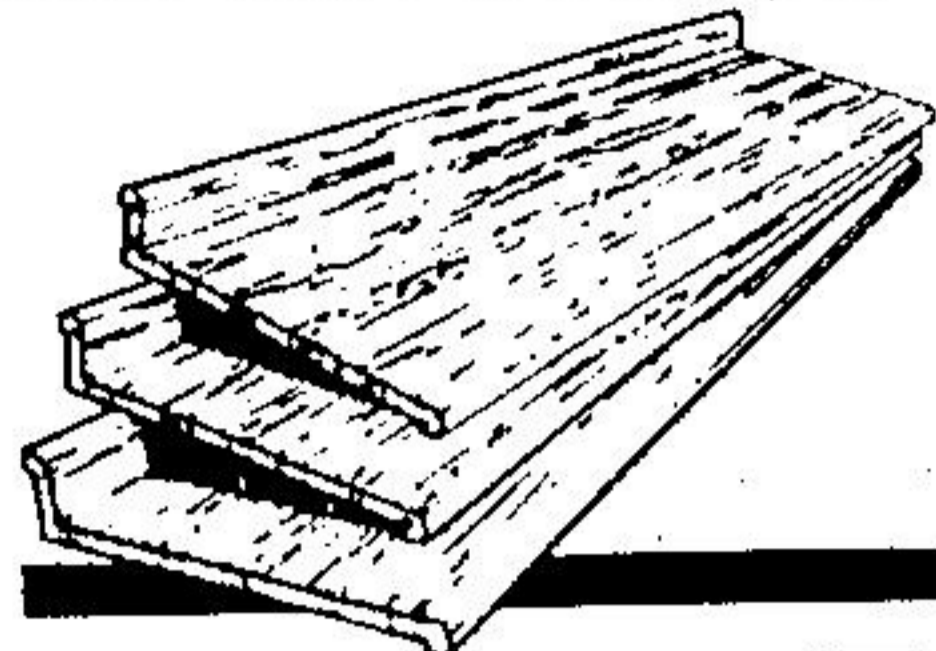

Do you remember last winter's fuel bills? Insulation is cheaper.

Now is the time to cut your fuel bills before they start with insulation. Buildall has the insulation and the know-how to help you beat the high cost of fuel by conserving energy in your home. After all, homes are our business. All you need to know and the right insulation to do the job is at Buildall!

Fiberglas Insulation

Don't let fuel costs get the better of you this winter. Stay on top of things with do-it-yourself Friction Fit Fiberglas insulation from Buildall. A one-time job with permanent fuel savings and home comfort benefits. Merely install the insulation batts between studs or joists. Friction holds them snugly in place. A depth of 6" is recommended for effective attic insulation protection. Ask your Buildall man to help you choose a Friction Fit insulation thickness that is best suited to your specific needs. Due to extremely high demand and short supply, stocks of insulations cannot be guaranteed. Supplies are arriving at our yards but they are moving out just as quickly. We apologize for this inconvenience, which, unfortunately is a market condition that is beyond our control at this time.

Suspended Ceiling System
... a versatile way to solve problems.
With unexpected ease, a suspended ceiling can beautify your basement recroom by effectively hiding wiring and plumbing. Yet, these utilities remain accessible for inspection or repair. Built-in lighting and sound conditioning are further examples of suspended ceiling versatility. White enamel framing components lock together quickly and securely. 2 - 4 panels then lay in the completed grid opening.
