

Cupboards are coming out! Rooms open up to new styles

The cupboard is coming out of the kitchen. It's moving into the living room, dining room, master bedroom, children's rooms, family room, den.

The move is on because the cupboard is no longer a cupboard. It's a cabinet. About 99 per cent of the time it's a built-in, not a free-standing unit, and it's furniture, embodying the same characteristics of style and finish as furniture for any other room of the home.

No longer is your choice confined to colonial, contemporary, mediterranean or provincial; you can have most any exterior styling your eye finds appealing, be it oriental or alpine!

And inside, manufacturers offer all kinds of options to organize storage: revolving racks, roll-out shelves and trays, vertical dividers, drawer dividers, letter files, food files, wine racks, can racks, cutting boards, towel bars.

What makes these and other fittings good for the kitchen — the fact that what was once fixed is now flexible — makes them useful in other rooms, too. And the same people who plan cabinetry for kitchens design its installation in these other rooms.

Many of the country's "space specialists" are members of the American Institute of Kitchen Dealers, who operate as independent retailers or are affiliated with a lumber yard, or an appliance or home center.

These professionals are equipped to plan and install, or to plan the cabinetry and let you install it. From AIKD members come these beyond-the-kitchen storage suggestions:

Master Bedrooms: Transform a sleeping room into a 24-hour-a-day room by building in niches for stereo and TV, nightstands with bookshelves.

Install a small refrigerator for midnight snacks, in a cabinet that by day is a desk.

Library or Den: Use cabinets and shelves to contain books of all sizes and to keep paperwork in place; to house stereo equipment, television set, tapes and tape deck; to store and keep records at hand.

Build in a desk with a letter file above, a bar with roll-out bottle shelf and wine rack.

YOUR-

Sheets are off and 'in'

Sheets have come from the days of a linen closet necessity to one of the hottest and most fashionable items in the retail market.

Sheets are in. There are now designer sheets, washable satin sheets, sheets with museum print reproductions, round sheets, waterbed sheets, even heart-shaped sheets!

With such a sheet boom in progress, it's only natural that decorators and designers everywhere are coming up with hundreds of unique ideas for taking the sheet off the bed and putting it into the total decor of the home.

One favorite non-bed use of sheets is for wall-hangings; sheets can be gathered slightly and hung from the ceiling of one or more walls of a room for a rich-draped, coordinated effect.

Sheets can be purchased in mix and match styles and colors for pillow covers — especially popular are the large, overstuffed floor pillows scattered around a room.

The only limit is your own creativity!

Bicentennial ticking

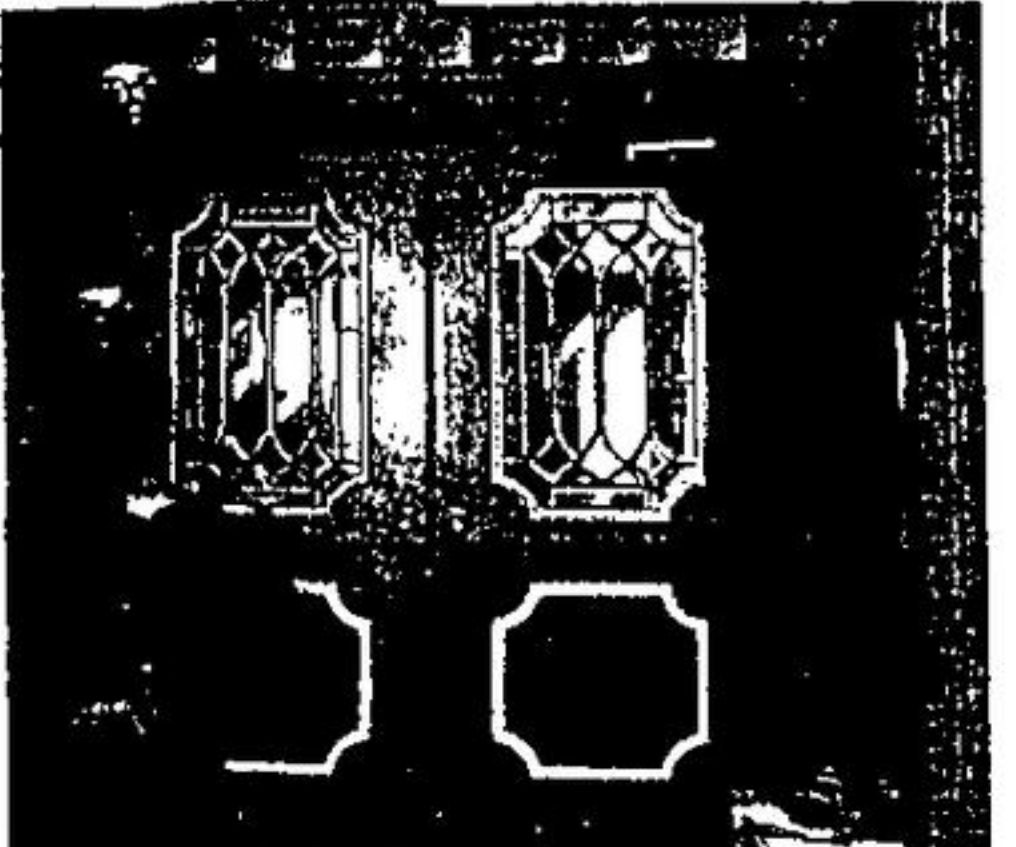

THE UNMADE BED in traditional ticking but brightly striped for the Bicentennial in red, white, and blue, is perfect for son, daughter, or guest room. With matching headboard, it is pretty enough to leave as shown requiring no extra linens or bedspreads for covers when not in use. The whole room has taken its color cue from the Minnie-Mann ensemble. Note the use of a broad foil strip edged in red and blue which visually lowers the inordinately high ceiling. Available in twin size, suggested retail under \$160.

Don't stoop to conquer... Give kitchen a lift with new heights

Give your kitchen a literal lift. Why stoop and bend when you can raise the convenience of owning a dishwasher to new heights.

The dishwasher in this "top of the line" kitchen has been elevated 18-inches off the floor for easier loading and unloading — an idea that can be translated into a number of different locations.

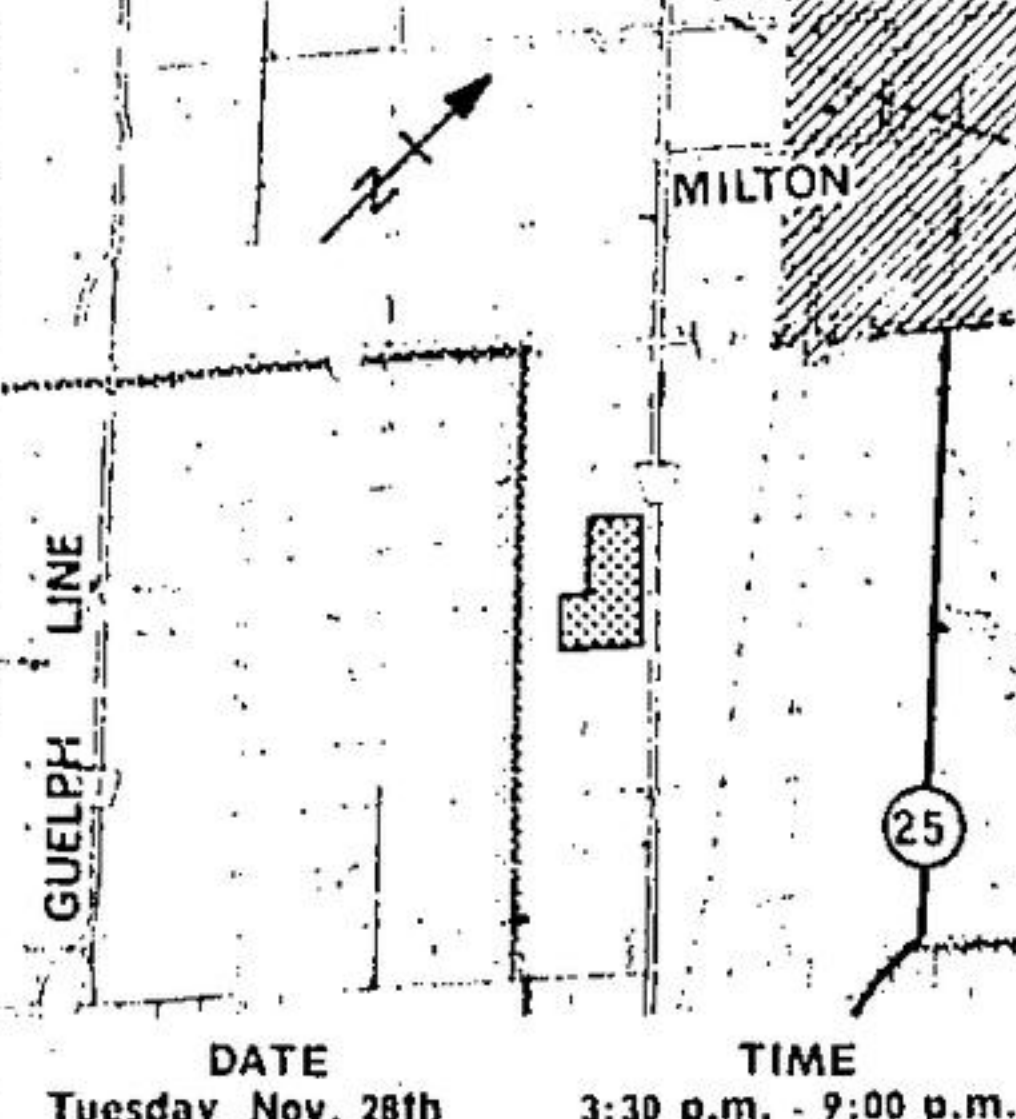

Old world charm in safe double doors

Today's city dweller is concerned about the safety of his building, and that safety starts at the entranceway.

But city dwellers want their entranceway to also be as attractive as possible — a welcoming sight for guests.

OLD WORLD CHARM is the striking effect the new entranceway brings to this remodeled building. The beauty of hand-beveled leaded glass, now available in single or double doors from Pease Ever-Strait permits tenants a charming way to welcome guests, while two steel facings laminated together give much needed protection from intruders.

(at Trafalgar Road)
OAKVILLE, Ontario

DATE: Friday Dec. 1st 3:30 p.m. - 9:00 p.m.

Fairview Public School
2596 No. 5 Sideroad
Milton, Ontario
(Britannia Rd. just west of Guelph Line)

The Regional Municipality of Halton has recommended a Regional Landfill Site on a 246 acre parcel of land in the Town of Milton.

Please visit one of our open houses to obtain information on the design and operation of the proposed landfill.

Regional staff and representatives of the consultants will be available to answer questions.

BEFORE: Tenants of a downtown apartment building recently got the tenants' unanimous vote when they remodeled and installed a Pease Ever-Strait door system.

The old doors of wood with glass panes were removed and the new remodeled door unit was easily installed. No need for expensive alterations, since the Pease Ever-Strait door system provides the full unit.

With 32 patterns and styles to choose from, the owner of the building had no worry about finding a door that would match the style he had in mind.

The construction of the doors creates warp- and swell-free characteristics for durability, and external and internal steel facings, laminated to an insulation core of polystyrene, "thermal break," makes the door weather resistant.

The new entranceway now sports double doors with hand-beveled leaded glass that brings an old world charm to the entrance.

HALTON SOLAR STRUCTURES LTD.
SALES - SERVICE

Attention Builders:

SAVE MONEY... Through the use of our complete line of Temperature Schedulers, Fan Systems and Environmental Control Systems, you can efficiently manage and reduce your home's energy costs. The cost of this equipment is realized in energy cost reduction (at today's energy prices) in twelve to eighteen months.

THIS IS A GUARANTEE. NOT AN ESTIMATE!

COUNTRY-STYLE COTTAGE HAS 3 BEDROOMS

Here's a glamorous little stone cottage right out of European romantic history. The fieldstone veneer and chimney, deeply sloping shingle roof and solidly framed windows convey an impression of permanence and security, keeping a family cosy in winter and cool in summer.

The elevated porch style entrance leads into a compact but lengthy foyer and naturally left into the very large L-shape living room dining area combination which features a centrally positioned fieldstone fireplace and convenient pocket door to the kitchen.

The well-planned U shape kitchen separates from the large nook family room via open work counter area, which could easily be developed as a snack bar counter for those who prefer. A pocket door from the nook provides access to the front hall and to a two piece vanity bath. The latter has a counter area adequate to the installation of a second vanity sink for greater convenience.

Three risers lead down to the lower level single car garage, which has abundant space to the rear for trunk storage and the development of a handy home workshop.

All three bedrooms are positioned upstairs around the central bath and linen storage area and laundry utility complex. All have excellent natural lighting, generous closet storage facilities and interesting sloped ceilings. The large master has a second fieldstone fireplace, built in cantilevered bench and a three piece ensuite with tub. A second vanity sink could easily be installed in the large

surface counter-top of the ensuite for greater convenience on rush mornings.

A laundry utility complex, featuring side by side washer and dryer is immediately facing the master bath and adjacent to the linen storage closet, thus placing the laundry facility exactly where it's most needed and most conveniently accessible.

Great visual appeal is presented by this functional and pleasing design which affords the smaller family comfort and convenience well suited to the medium frontage building lot.

Plans for design No. 78 1639 may be purchased either by the single set, at a cost of \$70. for the first set and \$10. for each additional set, or by the package. A five set plan package, including the first set, is economically priced at \$100. and an eight set package, also including the first set, is only \$125.

Whichever method you choose, please include \$4. for postage and handling.

Send for the current edition of Select Home Designs Magazine, Series 38, featuring imaginative decorating and home improvement ideas plus 39 quality home plans of every type. Available for \$2.75 (\$1.75 plus 50 cents postage and handling).

To order any of these items please send cheque or money order payable to the Home of the Week. Address to: Home of the Week, The Herald, 103 Main St. S., Georgetown, Ontario.
