Easy assembly

Component Cabinets get it all together

A Great new idea in component cabinetry — now lock-in assembly! To assemble, or take apart, turn a screw for each connection. Extra-heavy particle board has a handsome vinyl veneer walnut-look. Custom-designed for our Realistic STA-2000 and STA-2100 receivers, and our SCR-1800 receiver. Top shelf is 8-1/4" high — other two are 7". Smoked, glass doors have magnetic closure. 42" H x 22-3/8" W x 18-1/4" D. 42-8604

B Cabinet is of the same material as (A) and has the same new lock-in assembly construction. Receiver shelf adjusts to choice of 3 heights. Magnetic-closing doors. 33-1/8" H x 22-3/8" W x 15-3/4" D. 42-8603

C Cabinet is same material and construction as (A). Split level style. 43-7/8" L x 15-3/4" D. High side: 25-5/8" H, low side: 17-1/2". Receiver shelf is 7-1/2" H x 20" W x 15" D. 42-8605

Add a turntable to your stereo system

A REALISTIC LAB-250 BELT-DRIVE MANUAL TURNTABLE with speeds 33-1/3 & 45 RPM. Viscous-damped, cue-pause lever protects records. With 29.95 value cartridge & hinged dust cover. 42-2968

B REALISTIC LAB-500 FULLY AUTOMATIC TURNTABLE has direct-drive Servomotor & electronic, quartz-locked circuit for absolute speed precision at 33-1/3 & 45 RPM. Spindle is actually the motor shaft itself! Has 69.95 value top-of-the-line cartridge with bi-radial, elliptical stylus & hinged dust cover. 42-2970

C REALISTIC LAB-110 FULLY AUTOMATIC 3-SPEED TURNTABLE for economy, convenience & GREAT SOUND! Damped cue/pause protects records. Has magnetic cartridge with diamond stylus & dust cover. 42-2963

8-Track Record/Play Decks

Build a tape library of your favourite music! Make "live" recordings! Realistic TR-883 has many features: Digital timer and Auto-Stop. Illuminated dual VU meters and level controls to assure precise recordings. Pause control matches deck to input requirement of your receiver or amplifier. 14-946

Realistic TR-884 lets you build a library of quality 8-track recordings inexpensively. Make "live-action" recordings by adding mikes! Easy to use because there are dual VU meters, and recording level controls to aid in making precise recording levels. Rear panel output level adjustment matches any receiver or amplifier. Auto-Stop, in Record Mode, prevents accidental erasure. 14-947

Radio Shack
