## Acton man reflects on his rough start in Canada was in many others and he

By MAGGIE HANNAH

Herald staff writer "I love Italy 'cause I was born there, but I love Canada because that's where I make my living."

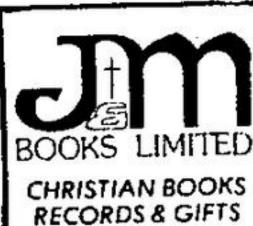

So says one of Acton's long time resident, Eugene Braida. Mr. Braida was born in a stone house in a village called Gravare, which is in the Alps in the north if Italy. The farm was very small and the main crop was grapes. They made wine for a cantee, he said.

"It was a poor way to live,"

he said. He was 12 when his father died and he had to help his mother raise his four younger brothers and sisters. He waited until he was 19 before he decided to emigrate because he couldn't make a good enough living in Italy to keep himself and help his family

He made the trip with three or four boys of roughly the same age but two of them stopped off around Toronto where they had friends and he travelled on to Bracebridge with only one companion. They had come by boat to New York City, that took a month, and took the train the rest of the way. Customs were no problem in those days, he said. In Italy Customs officials might have been stricter about what people were bringing into the country but both Canada and the United States were welcoming new immigrants in 1906 so they weren't checking things very carefully.

TANNERY WORK He had friends from his village working in a tannery in Bracebridge and they had arranged his passage for him and sent him his tickets. Unfortunately his train ticket was wasn't quite complete. It was only good to take him Gravenhurst, 10 miles short of his destination. The train officials forced him to get off at Gravenhurst and since he could speak no English he couldn't make them understand where he was going nor could he find out what was wrong with his ticket. Finally a policeman came up to him on the platform and tried to ask him what was wrong. Mr. Braida pulled out a letter with the address of the Anglo-Canadian Tannery on it and tried to explain that he was going there to work.

Where is He That is Born

Sunday, December 24th.

Another officer was brought over and the train officials and the station agent got into the at too. They kept saying money over and over but Mr. Braida didn't know what that word meant.

Finally he pulled out the last of his cash, a five dollar bill, and gave it to the agent. Immediately his problem was solved. He gave him a ticket for his destination and handed him his change and he was off again. The total cost of the remaining passage was 12

During the two day train trip Mr. Braida said he had nothing to eat or drink.

"I expect there was some place I could get food and water but I didn't speak English so I couldn't ask for it," he said.

Wages when he started in the tannery were 1242 cents an hour for a 10 hour day, he said, and he got room and board for

Italians were well liked, he said, because they were known as hard workers. For this reason there were a number of Italian families in Bracebridge and it was easy to get jobs for friends or relatives in the

LATER MARRIED One of the Italians already in Bracebridge when he arrived was the girl he later married. Teresa and her sister emigrated in 1905 along with their aunt and uncle and Mrs. Braida was working in a linen factory when he met her again. They had gone to school together as children in Italy, he said, so they were already acquainted before they arrived in Canada. Mr. Braida worked in Bracebridge for a number of years with a few breaks for other

One of these breaks occurred shortly after he first came there although he isn't exactly sure of the date.

He was out of work because the tannery was on short time so he decided to go north and see what he thought of mining. He took the train to Cobalt and then went to a silver mining camp by horse and wagon. It was about an hour's ride from the town. There were no roads, just trails through the bush.

town for a fee, and waited to bring them back.

Eugene Braida, 9t, was born in a stone house in the Italian Alps. Itis mother died in this home in 1948. All through World War 2 the Braidas could get no news of their family and never knew if they were alive or dead. Mr.

proaching. The patients are very grateful for this help, and many friendships have developed in this way.

The executive agreed to make a donation to the Princess Margaret Hospital, in order to bring cheer to those who are confined to the hospital, over the Christmas holi-

Betty Hull, the Knitting Activity Chairman reported that the benutiful hand knitted infant and toddlers wear, plus novelty items, knitted by our Activity Group, would be on sale at the Blue Triangle Club's bazaar, held December 4st. at St. Andrew's United Church. We express our thanks to the Blue Triangle Club, for enabling us to have a booth set up at their sale.

Mary Ellen Bridge, Education Chairman, stated that a float was being built for the Georgetown Santa Claus parade, by Chris Bridge, and

Barry Butwell. We welcome Rita Bairstow who is now the Recording Secretary of the Executive.

"I tell them, 'you go try yourself'," he said.

Mr. and Mrs. Braida went back to Italy to be married in 1912. They stayed about three munths, then decided they could make a better living in Canada and returned to Bracebridge and the tannery.

That year Mr. Bralda brought over his 16-year-old brother Abel, better known to Acton residents as Bill, but his brother Severino for Silver) was too close to going into the army and couldn't get out of the country until he had done his service. He served four years before he got out.

Mr. Braida, himself, escaped doing service because a widow's eldest son is exempted in peace time in order to help support younger children. Mr. and Mrs. Braida return-

ed to Italy with three of their children in 1923 with the intention of staying there permanently. They had four children when they again returned to Canada 212 years later.

Rena was born in the same stone house with the flagstone roof in which Mr. Braida had been born. There were, of course, no such conveniences as water, telephone or electricity. The houses were, in fact, very much an all-purpose structure. The family's livestock used the main floor. The family lived in the second storey and the lofts for hay were above that. The farms were scattered bits of ground sometimes several miles apart depending on where there was a bit of ground good enough or clear enough to be cultivated. Since the fields a farmer owned were so scattered the houses were groups together in one place rather than being on the property the farmer owned, Mr. Braida said.

TANNERY CLOSED The Bracebridge tannery closed up and its workers were offered jobs in a tannery in Huntsville, Mr. Braida said he and his family stayed there about six months, long enough to see one winter, then decided they didn't like the area. They came to Acton in March 1926 and he's still here.

Since he had learned a trade, finishing sole leather, he was able to get a job in Beardmore's lannery and he was with them 16 or 17 years.

Mr. Braida bought the shoe store on Mill Street from Bill and John Kenney in 1938 and he ran that with the help of his daughter Rena, until 1958. He quit the tannery in the 1940s although he can't remember the exact date. He opened his own factory in 1952 making women's shoes, boots and slippers in a building behind his home on Queen Street. He had 40 people working there when it closed in 1965.

Mr. Braida bought the old Mann farm which he suspects goes back to the crown. It was the property famous Canadian railway builder Sir Donald Mann bought to build his parents a home. The 130-year-old house has been completely renovated inside and out but the original structure is still there underneath.

Mr. Braida recalled that during the Depression money was scarce in their home as it

ping in to chat whenever they used to cut all his winter's were passing. He was apwood on neighboring farms and use that to keep expenses proached during his younger days to stand for municipal down. open house last year conservative estimates says 275 guests stopped in some time during the day to wish him well. Visitors came up to 100 miles for the party.

Mr. Braida is very proud of the relationship he maintains with his two brothers who live less than a mile from him. They never fight, he said, and they still love each other. His two sisters died in Italy.

He lost his son Norman in 1971. He was president of Beardmore at the time.
