

## About the Hills

### Dental health week

Town council has proclaimed the week of Apr. 15 to 21 Dental Health Week in Halton Hills. The proclamation was made Monday night in compliance with a request from the Halton-Peel Dental Association, which pointed out that the week is to be observed both nationally and provincially.

### Closing considered

Officials of Canadian National Railways have assured Peel-Dufferin-Simcoe MP Ross Milne that Parks Canada and town council will be consulted before any final decision is made with regard to the future of the historic train station in Georgetown. The interests of the Toronto area transit authority and VIA Rail Canada are being kept in mind while CN considers the ramifications of its recent decision to close its ticket agency at the site. Mr. Milne was informed in a letter placed before town council Monday night.

### Marathon

A group of five students from Acton high school are attempting to beat the world record for continuous artificial respiration. Gwyneth Gibb, Richard Stanlev, Barbara Hogenbirk, Bev Mueller and Nancy Patterson, will be attempting to maintain artificial respiration for 70 hours on a mannequin provided by St. John's Ambulance. The marathon began yesterday at 10 a.m. in the basement of St. Joseph's Church in Acton. The students became interested in the idea when they read some of the records in the Guinness Book of World Records, and decided that as well as having some fun, they could do something to promote the importance of people knowing how to administer artificial respiration. The students will be taking 15-minute shifts and in between times, they will be handing out pamphlets from the Red Cross.
