

# Ontario Outdoors

BY R.C. (BOB) OLLIVIER

The Serendipity Singers will be at the Toronto Sportsmans Show, today and tomorrow. On March 23 to 25, T.V.'s Hee Haw Girls along with Gordie Tapp and the musical group, Whiskey River will perform. Plenty of boats for the water lover or fisherman or the high velocity unlimited hydroplane, a boat that puts out 3000 horse power. Take the opportunity while at the show to discuss the new firearms laws with government officials who are staffing a booth there for this purpose.

The Toronto Angler and Hunters casting pool is a good place to sit and relax a while, and the demonstrations and competitions are great to watch. For the ladies there is a fashion show put on regularly and the Duck Decoy Carving contest provides one of the highlights of the Toronto Sportsmans Show.

All these programs and activities as well as over 500 exhibitors are enclosed indoors in 12 acres of excitement.

Custom Knife makers CEBEK and FERRI teamed up and are displaying their knives. Truly beautiful as well

SPORTSMAN'S SHOW DISPLAY

as functional, and Linda Zernask invites you to "come up and see my etchings", on those knives that is.

Search out the Ontario Steelheaders and Salmon Fishermens organization. Their aims are worthy. If fishing for Rainbows in Ontario is your bag maybe this is the organization for you. As yet I don't know much about them so check them out.

There is always something for the kids at the Sportsman Show. This year there is "ECO SQUIRREL" an environmental puppet show sponsored by the Abitibi Paper Co. It features 3 programs all on the forest. Paper companies have been known to pollute our waterways with processing waste. However, they are working in the forest and with regulated cutting, they can benefit wildlife. But "Eco Squirrel" has an important message so, check him out.

Oh yes, don't forget to look up RED FISHER and enter the contest at the Mercury Outboard Theatre. Even fishing, boating and adventure films. Knock around some "scuttlebut" with Red, he's quite a guy.

For the dog lovers out there, the Retriever Trails are ongoing from 7 to 9 p.m. and there are over 5000 entries in the Canadian National Dog Show in the Queen Elizabeth Building. This is Canada's largest all breed show and almost every conceivable breed is represented.

Of course there are all the personalities, such as PETER STICKLEE with his big boat. Talk to Pete and tell him I sent you down and you want to see all the equipment on his boat. Pete is only too willing to explain all the gear needed for "downrigger" fishing in the great lakes. Close to Pete's display is Monty Smith and his boat. Two boats within 10 feet of each other, so you can compare size and equipment. If you remember last summer and fall I did a series of columns on these boats and will follow it up this year with updated information.

I tried last week to emphasize the CUSHNER COLLECTION OF FISHING FLIES. These old and new flies are mounted in an artistic fashion and is an absolute must for the show goer. This display is WORLD FAMOUS and some people have travelled thousands of miles to see it. You only have to head down to the Toronto Sportsmans Show in Toronto.

Over 6000 people waited outside the gates last week just for the doors to open. I believe this shows the interest in the show and you should be one of the over 300,000 people enjoying it, but don't let these figures deter you. Weekdays noon till 11 p.m., Sunday 1 till 9 p.m. and Saturday 10 a.m. to 11 p.m.

Of course it is the feature of the year for outdoors people in ONTARIO OUTDOORS.
