

Music makes life more fun!

\$15

Speakers separate up to 6'

REALISTIC
8-track stereo player with AM/FM radio

Reg. 79.95

Big value in carry-everywhere entertainment! 2 speakers separate up to 6' for beautiful sound — separate controls for each. Versatile! Has AC cord, but use also with 6 "D" cells or 12 VDC adapter (neither included). 14-908

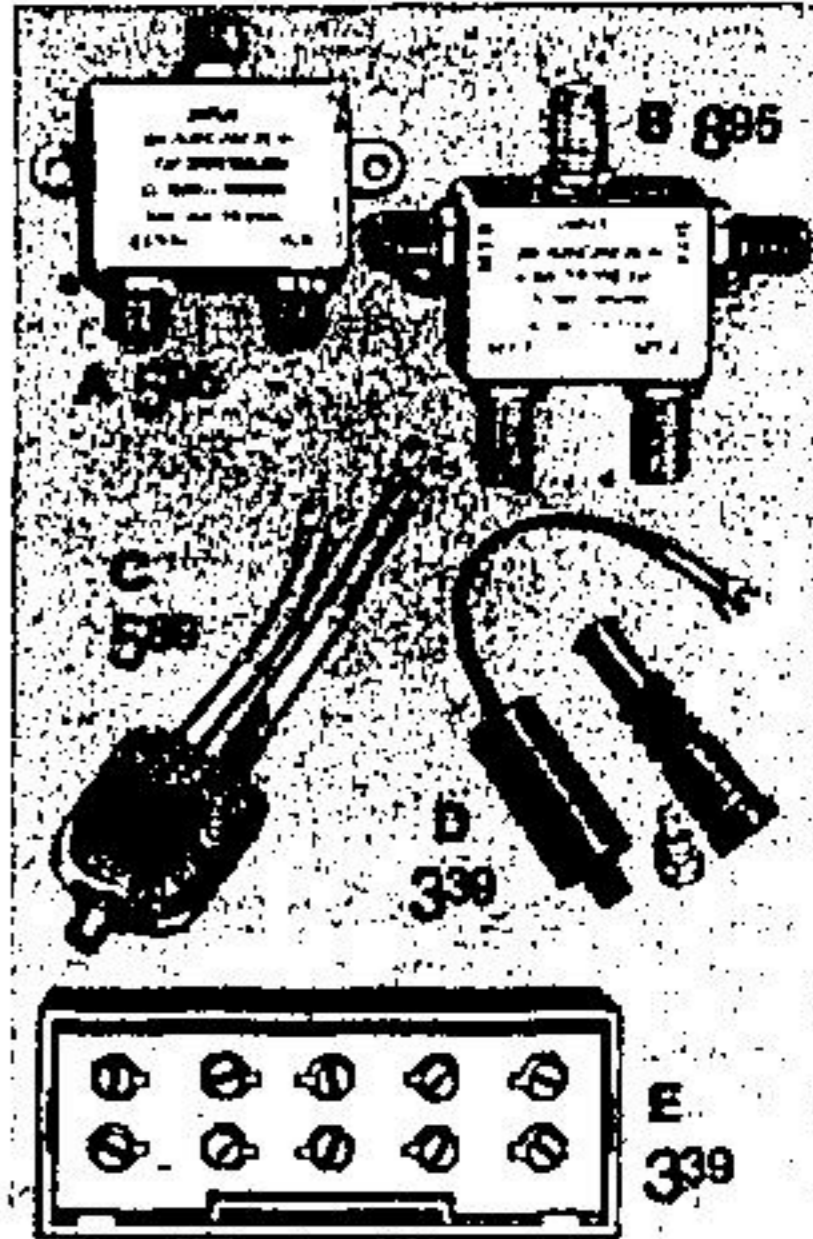

6495

REALISTIC
Portable cassette recorder with AM/FM radio

Play or record tapes anywhere — even directly off-the-air! CTR-48 has Auto-Level, Auto-Stop & tone control. Jacks for remote mike, earphone/aux & DC adapter. AC cord. Use it also with 4 "C" batteries (not included). 14-839

Add sets -- combine downloads

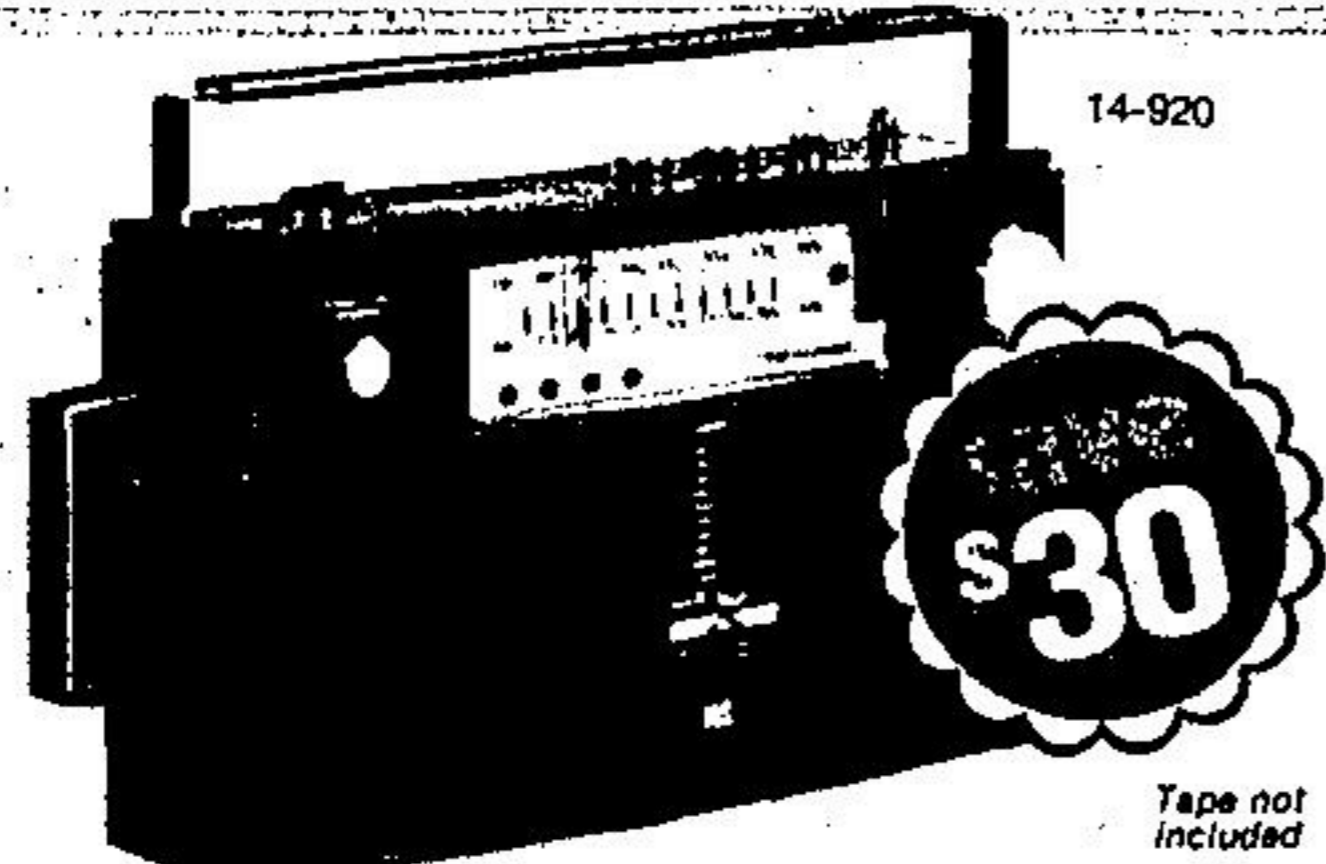

A 75-ohm 2-set coupler/combiner. Low-loss transformer splits a single 75-ohm download to 2 VHF/UHF outputs or can reverse to combine outputs of a UHF & VHF antenna into one 75-ohm download. 15-1141..... 5.95

B 75-ohm 4-set coupler. Low-loss transformer splits a single 75-ohm download to 4 VHF/UHF outputs. 15-1142..... 8.95

C Indoor transformer/splitter. Separate 300-ohm VHF/UHF/FM outputs from single 75-ohm shielded download. Ideal for colour TV, FM stereo. Insta-Mount. 15-1139..... 5.89

D Indoor/outdoor 300 to 75-ohm matching transformer. Matches 300-ohm antenna to 75-ohm shielded download at the antenna or reverses to transform 75-ohm download to 300 ohms at set. Solderless. 15-1140..... 3.39

E Indoor multi-set couplers. Drive up to 4 TV/FM sets from one antenna in strong signal areas. No set interaction. 300-ohm. Insta-Mount, 4-set. 15-1502..... 3.39

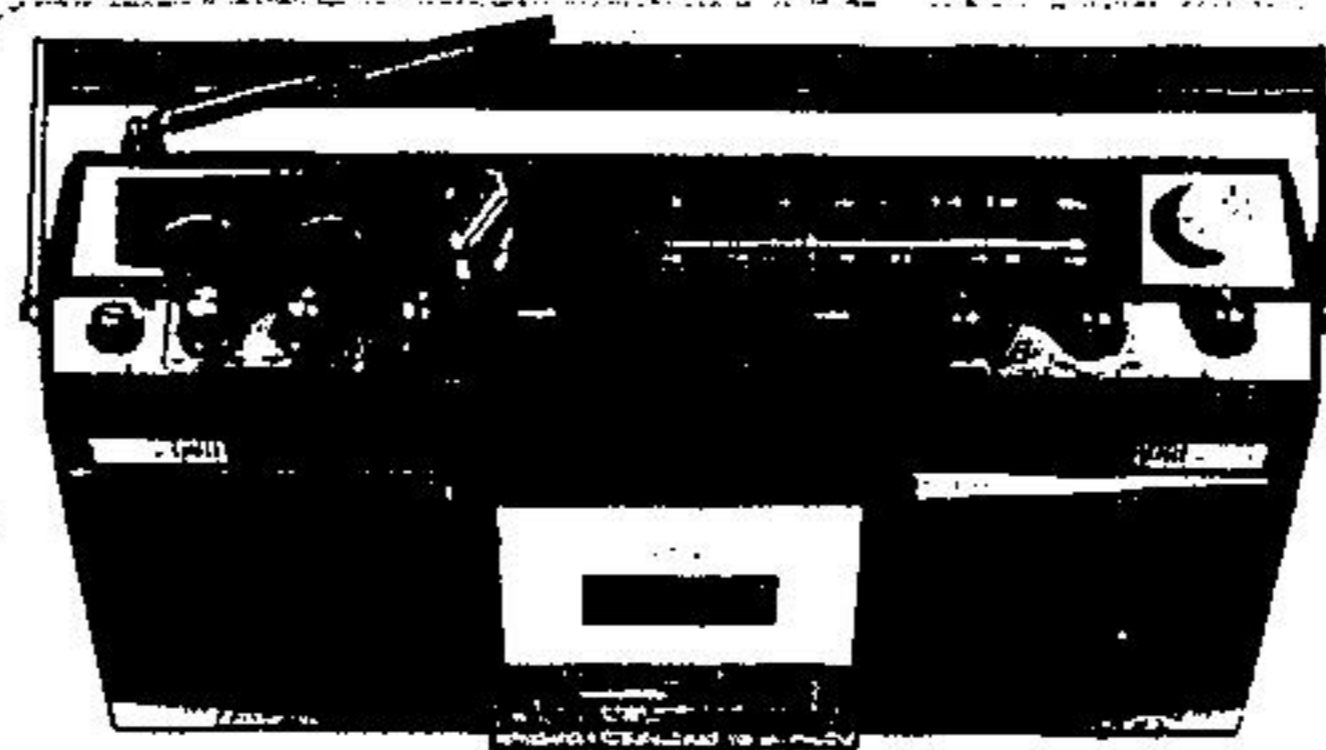

REALISTIC
8-track stereo player with AM/FM stereo radio

Reg. 139.95

Concertmate™-8 — deluxe portable! Twin 3-1/2" speakers, plus "Wide Scope" switch, give extra stereo depth & separation of rich, high fidelity sound. (Separate volume controls for each speaker.) Ceramic filters on AM & FM — and AFC for drift-free FM. AC cord. Use also with 8 "D" batteries or a 12 VDC adapter (neither included).

Exciting project kits for fun and learning!

Solar energy kit Reg. 16.95 **1195**

Discover the power of solar energy with this 25-project kit! It's fascinating! It's fun — and what a way to learn! Build a solar-powered radio, transmitter — much more. 22 components include 2 solar power panels, diodes, transistors and a transformer. Some projects require one 9V and 2 "AA" batteries (not included). 28-248

CB monitor receiver kit Reg. 14.95 **1195**

So much fun to build — and to use! From the kit you can make your own CB monitor receiver! Covers all 40 channels! Listen to truckers, motorists & other CBers. Easy to build. Illustrated board, spring-clip wiring & numbered parts. Requires a 9V battery (not included). 28-238

Electronic lab kit Reg. 12.95 **995**

10 exciting projects! Build your own amplifier and audio test equipment! Learn & use Morse Code — after making a practice oscillator. Manual includes wiring diagrams, schematics & theory of operation. Easy, spring-clip wiring. Requires one "AA" battery (not included). 28-225

Crystal AM radio kit Reg. 6.95 **495**

Plays forever without power, transistors or tubes! How does it work? A tiny diode converts the RF signal to audio, using circuitry similar to what Marconi used in the early 1900's. Covers 550 kHz - 1600 kHz AM band. With earphone. Easy solderless assembly. 28-207

AM headphone radio kit Reg. 19.95 **1495**

Build your own AM headphone radio! Listen to music while you work, jog or bicycle! Foam-padded earcushions seal out noise for great "private" listening. Side-mounted volume and tuning controls. Hidden antenna. Requires one 9V battery (not included). 28-4021
