

RESTIN' HIS DOGS

Limehouse area

The Limehouse area consists of 190 acres on the Black Creek on the Niagara Escarpment. It is being developed as a multiple use conservation area but must be protected from overuse since the face of the escarpment is very fragile in the area. The area is historically important and contains an abandoned limestone quarry, kilns and the remains of a mill used until 1917. The Bruce Trail winds through the area and at this time the area is used only for hiking.

Terrific response to product

Being able to get out and around to enjoy the fresh air and scenic beauty of Halton Hills is part of summer's fun for most people. For those who suffer with corns and calluses it isn't what it's cracked up to be.

Geoff Fletcher of Fletcher's Family Shoes remembers all too well what misery *sore feet* caused his wife. He also remembers how relieved she was when she found something to help her live with her calluses.

The problem solver was a German device known as Credo callus remover and Mr. Fletcher negotiated for months with the German manufacturer before he was granted exclusive import rights to sell Credos in Canada.

Mr. Fletcher began selling Credos around Christmas time and can't get over the response his customers give him.

"I can't get over the letters we get," he says. "One per-

son ordered 14 Credos to give to her friends. I even had a letter from one fellow saying I didn't charge enough for it."

Mr. Fletcher advertised his Credos in the Legion magazine in April and received orders from every province and the territories. He will be advertising in the TV Guide and the United Church Observer as well as the Legion magazine in the future.
