

Some ponds need stocking

By R.C. (BOB) OLLIVIER

Now that we that weekend out of the way, we can settle down to some serious fishing. The bass fishing in the local areas are very good, even if they are few and far between.

I am still convinced that with a little encouragement the conservation authorities will stock bass in some of the ponds. The large pond at Terra Cotta is, according to some biologists, too warm for trout. I know I have caught some really large trout in that large pond but that is the consensus of opinion. It would be ideal for Largemouth Blackbass, and it is large enough to make it challenging fishing. I doubt if they will ever allow boats due to the life-guarding factor, but the shore fishing would be ideal along with wading.

However, that takes effort on the part of fishermen, and I have found they are a lazy lot. Get mad at me if you wish, but I get very little reaction from sportsmen and neither does anyone else. A very small percentage of outdoors people are members of the biggest organization that works for them, the Ontario Federation of Anglers and Hunters.

I spoke to about 20 fishermen recently and only one was a member and one other decided to join. For less than \$12 a year, you have insurance, protection of your sport and the chance to fight with an organized group for your rights. The magazine comes once a month with news and informative articles, and is well worth the membership cost.

Call me at 877-9290 or write to 25 Carole Street Georgetown Ontario L7G 3X5 for all the details and membership forms.

A five dollar resident licence is in the books for Ontario anglers and this is a welcome note. I mentioned this news some time ago in this column, and it is more of a finality now with the probable date of 1980.

A major expansion of the fisheries program is underway and this is also good news for the 2.5 million anglers in Ontario and it seems that the licence will effect those between the ages of 16 and 65 and will include women. Let's hope the money is always spent on fisheries as that is where the extra capital will come from, and I don't mean the commercial fisheries either.

Shakespeare has a recently released Grapher-Flaher recording unit called the 400 Depth Finder, a new system eliminates interference from other motors and gives detailed readings of either school or individual fish. Well worth looking into for the serious fisherman and those who fish the larger waters of Ontario.

I just got a letter from BRECK'S Sporting Goods and they tell me the effective formula of their Ole Time Woodsman Lotion or Insect Repellent has been increased to 80 per cent. As mentioned here, Deet is the main ingredient but insect repellent needs other compounds and this one has the well known Citronella at 5 per cent. This make an even better buy and the price won't keep you awake.

If you wish to see the Michael Dumas print that each entry into the OFAH and MOLSON'S big fish contest, I have one in my display room. It is truly an outstanding reproduction of a bass and anyone will be proud to display it, and the prizes in the contest are well worth the effort of getting your big fish weighed and measured and certified.

I will be glad to discuss at any time the contest and the Federation with those who may be interested, as I feel that it is a good contest and brings recognition to the sportsmen and women of Ontario.

I have to close this article as I am getting ready for the weekend of Bass fishing and have to get this to the office. Please call me this week with any news of good catches or plain good times. That is important in this huge province as we take advantage of ONTARIO OUTDOORS.

Royalettes win two more games

The Georgetown Royalettes easily won both their outings last week shutting

out Malton 6-0 and dumping the Oshawa Seniors 7-3. In the victory over Malton

Janette Mackay was carrying a very big bat as she slammed out three doubles.

She knocked in a run and scored two on her own.

Debbie Shortt, Patti Gies and Michelle Michm also had doubles and Shortt also had a single.

Shortt pitched the whole way for the Royalettes and allowed just four runs. Only one Malton runner got as far as third base.

In the victory over the Oshawa Seniors the Royalettes had plenty of hot bats in the lineup.

No one had a better night at the plate than Michm who was perfect in her four times at bat. She doubled, singled, sacrificed, walked and scored a run.

Charlene Milton, who singled and walked, scored two runs for the Royalettes.

Barb Curry also had an outstanding night. She walked, doubled and tripled and scored two.

Joey Bennett and Monica Pollock scored one run each. Bennett got on on a double and Pollock tripled.

Wilkes was the hurler in this game and although she had a little problem with her control she tossed a good game. She allowed just five hits while three more reached bases on balls.

Acton maintains lead over Akers-Clark

The Acton Merchants are threatening to run away with first place in the Georgetown Industrial Fastball League as they hold a nine-point lead over second-place Akers-Clark Real Estate.

The Merchants are showing absolutely no signs of letting up winning all their three games last week.

Akers-Clark won their only outing and they hold three games on hand on the Merchants. Akers-Clark also have to be very concerned about Hornby and Philp Publishing whom they both lead by a slim one point.

Team	P	W	L	T	RF	RA	P
Acton	19	15	4	0	104	60	30
Akers-Clark	16	10	5	1	77	47	21

Wed. June 27	CIS Plumbing 10 - Curwood Packaging 0 Hornby Greenhouses 10 - Philp Publishing 7 Rexway Towing 5 - Crichton Bros. 2 Acton Merchants 3 - D.R.G. 2 Acton Merchants 10 - CIS 3
Thurs. June 28	

Summer gymnastics available

Registration is open for the summer gymnastics program being run by the Halton Hills recreation department. The program will run from July 9 to August 17.

The program is open to girls five years and older, at a fee of \$20 a child. The program runs for half a day from 8:30 a.m. to 12:30 p.m. at the Rose Room in Georgetown Memorial Arena.

The program will involve skills in ballet, jazz and modern dance as well as modern rhythmic gymnastics. The instruction will be

provided by qualified coaches, including such guest coaches as Patty Rope, who was a member of the 1976 Olympic team.

The program is being organized by Dave Deere, himself a gymnast, and of the gymnastics team at Georgetown District High School.

He has been coaching the Halton Hills Jills for two years, and was a playground leader for five years.

Girls can register now at the Recreation department at Gordon Alcott Memorial Arena, at the Acton Community Centre or at Cedarvale Community Centre.

Just A Dash

If your gravy came out too salty, just add a dash of brown sugar. It won't sweeten the gravy or spoil the flavor, but it will diminish the salty taste.

Rural soccer league needs more referees

There are not enough referees available for the Rural Soccer League at Georgetown. With this in mind Dave Manning gave an introductory course on refereeing at the home of Doug and Jean Belshaw to a group of interested young and older people.

Those attending the course were Sheila Britton, Terri Reid, Des and Sheila Rafferty, Monica Stevens, Rod Cook, John Ugoes, Steve Melville, Jeff Taylor, Doug and Jean Belshaw, and Joanne Searle.

As a direct outcome of this course, Sheila Britton, Terri Reid, and John Utoes have each refereed at games this past week. They will also be

refereeing this week's game along with Rod Cook and Jim White.

Since this article concerns referees, we wish to thank referees Al Dockeray, Jim Clarke, Bill Barclay, Bryan Turner and Bill Oates for their unflinching support during this season.

GAMES REPORT

There were two games deferred this week, Strikers vs. Kinsmen and Demons vs. United.

One senior game was played between Supersonics and Flyers. The final score was Supersonics 3, Flyers 1. Because there is no referees report to hand we cannot report goal scorers or outstanding players.

THEY'RE BACK . . .

PIONEER

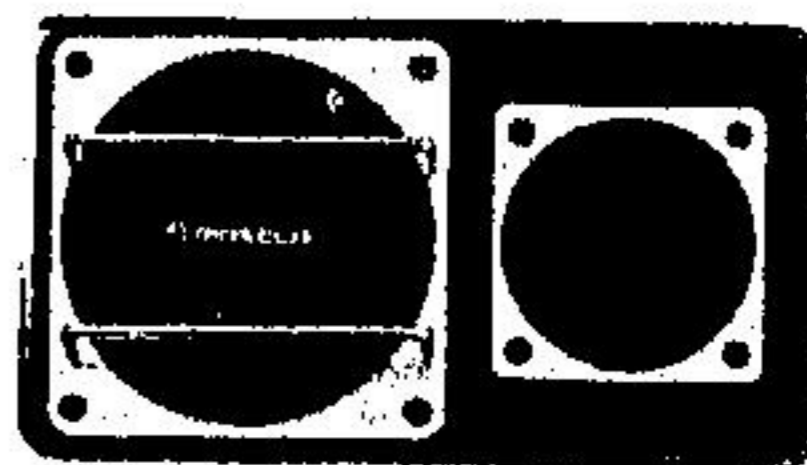

TS-X6

TS-X6 Specifications

Type	2-way, 2-speaker system with 10cm (4 in.) passive radiator
Speaker	10cm (4 in.) dry press cone woofer, 6.5cm (2.9/16 in.) cone tweeter
Cabinet material	Ultra heat-resistant resin
Magnet weight	150g (5 oz.) [woofer], 71g (2.5 oz.) [tweeter]
Magnet type	Ferrite
Input power (nominal)	10 watts
Input power (max.)	20 watts
Frequency range	80 - 20,000Hz
Sensitivity	88dB/W (1m)
Crossover frequency	8,000Hz (6dB/oct.)
Impedance	4 ohms
Dimensions (W x H x D)	237 x 128 x 170mm (9-11/32 x 5-1/16 x 6-11/16 in.)
Weight	1.66kg (3 lb. 11 oz.)
