### Oil pipeline a big issue must be settled

By R.C. (BOB) OLLIVIER

Our nation is sure having problems with pollution these days. The new oil pipeline or shipping is a big issue and it MUST be settled.

We do not need any more oil spills and the utmost care must be taken to prevent this type of ruination to the land, or the waters on which we depend. I recognize that people come before wildlife but there is no reason that we can not all live in harmony, and if man destroys the environment on which wildlife depends we will be the loser. Look what has happened to the agreement between the USA and Canada with the permission for CSA Chemical Waste Services company in New York State to dump 2-3 million gallons of effluent daily into the Niagara River which then goes to Lake Ontario. The ratio of 20 parts waste to 1 part water has no bearing when it builds up on the lake floor or in the suspended state.

#### FISHING REGULATIONS

The new (1980) fishing regulations have been released, but these are only a summary. This is important to remember as any mistake in the printing of the regulations will be your problem. I know this sounds harsh but the "summary" states "this is a summary and has been prepared for convenience only." For more detailed information consult the full regulations.

As it is there are at least four mistakes in the first printing of the 1980 summary of the regulations. These may not affect you, but is an indication of the care that must be taken. If in doubt, check with the Ministry of Natural Resources. The errors are in the interpretation of Resident of Ontario, resident of Canada, the three day non-resident licence and open season for brook Trout in Area No. 8.

#### SALMON RUNNING

Many persons have called and asked if the Salmon are still in the Credit River. The answer is a very definite YES. One of the dedicated fishermen is 13-year-old Kent Fulby of Georgetown. Kent and his father contacted me last Saturday with the news of Kent's largest Salmon to date. A nice 10 pound Coho taken from the Credit while fishing with his friend Tom Forbes. Taken on a "Salmon Bob", a spawn imitating lure, the fish was 30 inches long with good color. There is no season on Salmon but there is a five fish per day limit. Congratulations Kent, that shows real dedication as a fisherman working at it all winter.

Port Bolster and Keswick have good ice and lots of fishing opportunities for the ice fisherman. Georgian Bay has also proved to be continuing good. Test all ice surfaces before heading out or check with an operator. Not all ice surfaces are good although there are plenty of good locations where the ice is good, though with the mild weather this winter conditions change.

The well known Brian Donnelly called me recently with good news. He has dozens of prizes and contest wins under his fishing belt, and is working with a tackle distributor. For those who watched Ontario Outdoors on Cable 4, you will remember these men and the great variety of tackle they brought. This show was repeated several times at the request of viewers and Donnelly has agreed to do another show in the near future.

#### NEW LURE

The good news is the Bomber Bait Company, whom he represents has released a new model after the Long A, aptly named the Short A. These lures have proven to be about the best lure ever to be put in the water after our game fish. These are minnow shaped and the Model Short A is about two inches long.

The Sassy Shad, I wrote of so enthusiastically last season is now made in many new sizes and colors. The one I am looking forward to trying is the Yellow with Black eye, and this is one Sassy Shad that I am sure will take lots of Walleye this year. This lure has a soft body and can be used in various ways. I like it with a spinner bait type arm which has been cleaning up the bass for me in Fairy Lake in Acton. The promised report on lake maps and map ordering will have to wait for next week and I will add a little on fire woods and the problems arising. Till then, fight for your ONTARIO OUTDOORS.

# Payne, Marshall finally bowl 200

The competition in the qualifying round of the "4 Steps to Stardom" championships has the young bowlers at Georgetown Bowl showing some exceptional efforts. In the bantam division, Andrew Payne 204 and Craig Marshall hit their first ever 200. In the juniors, Teresa Maslach finished her 8 games with a 333. In the senior division, Dwayne DeCoste with scored of 351,255, 249 look over high triple for the season from Grant Richardson with 855.

High Scores: Seniors - Dwayne DeCoste 855(351), Jerome Stone 704(307), Len Fisher 702(248), Grant Richardson 695(240), Hope Hulme 707(277), Diane Leonard 649(219), Deb Scarborough 636(270), Paul Chaplin 658(266), Al Stennett 617(245), Jeff Dafee 604(229).

Juniors: Teresa Maslach 728(333), Debbie Lane 680(338), Julie McCorry 660(244), Lori Brading 589(248), Kelly McCorry 569(226), Anthony Larsen 573(216), Chas. Weatherall 550(216).

Bantams: Barry McLean 471(189), Brian Franks 463(168), Andrew Payne 461(170), Mark Miller 459(193), Glen Kaiser 453(158), Mike Compton 425(156), Ron Campbell 412(163), Laura Richardson 440(164), Cindy Kavanagh 532(160), Debbie Pentesco 430(159), Judy Carroll 417(159), Karen Doyle 406(144), Michelle Webster 404(169).

#### Georgetown Bowlers Assoc.
