

THE NEW HONDA CIVIC. WHEN IT BLOWS THE LEGEND GOES AND GOES.

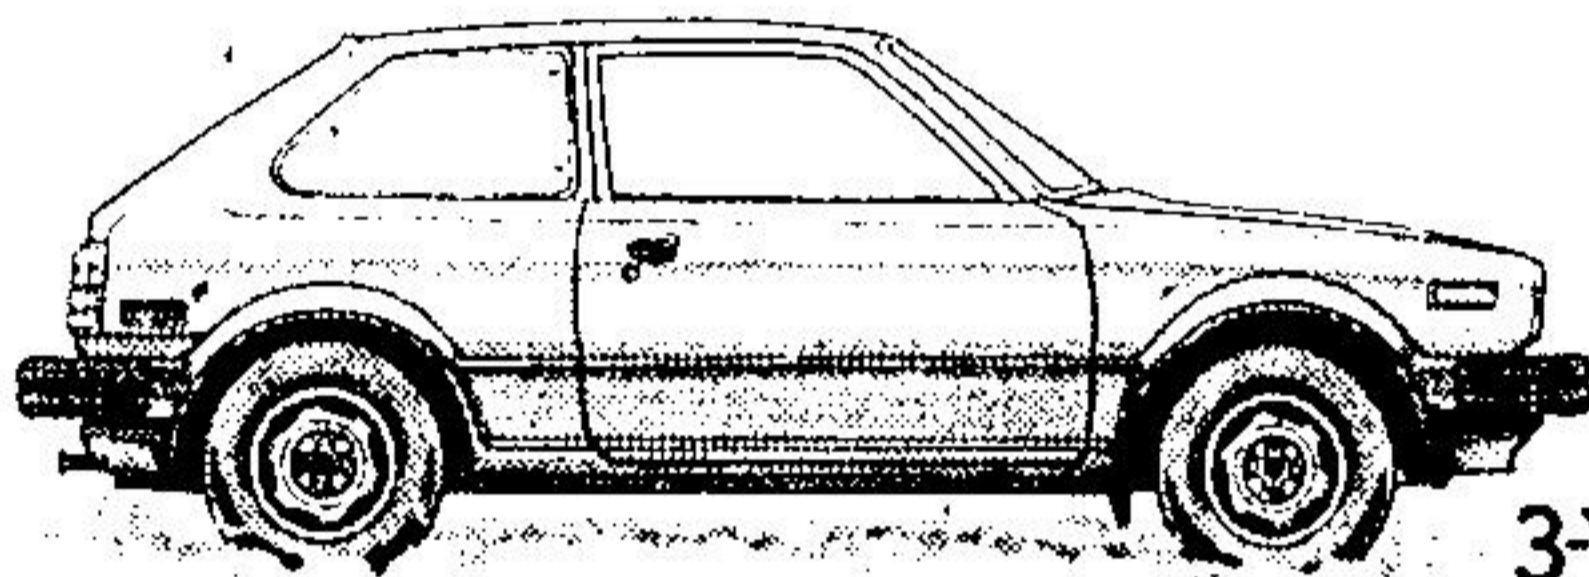

BETTER GAS MILEAGE.

The new Honda Civic is 13% bigger inside and has a bigger engine. Usually that means the mileage gets smaller. Not so with the new Civic. It's true that it got bigger, but it's also true that the mileage got bigger. And better. It gets a transport Canada rating of 6.7 litres per 100 kms. A rating that is good enough to be beaten by only 4 other cars in Canada. Two of them are Hondas, and one of them gets the best gasoline mileage of all... the Honda GL 1500.

FRONT WHEEL DRIVE.

One of the reasons that the original Honda Civic became Canada's best selling small car is one of the reasons why the new Civic will continue to be a success. It's Honda's famous front wheel drive. It puts the weight of the engine over the wheels that drive and steer the car. Which lets those wheels bite into snow and mud and help pull you through.

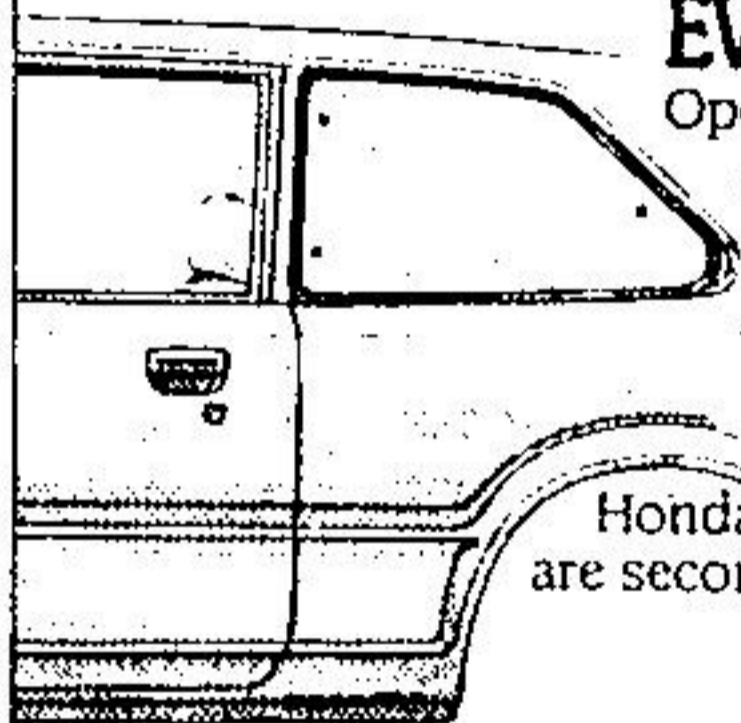

3-YEAR ANTI-CORROSION WARRANTY.

If a car is to survive Canadian driving conditions it must be made durable. That's why every Civic has special corrosion resistant lower body panels, plastic front inner fender liners and uses overlapping, sealed body seams to help resist the effects of salt and slush. Every Honda is guaranteed to remain free from surface corrosion for 12 months and free from perforation due to corrosion for 36 months. Your Honda dealer will gladly explain all the details.

EVERYTHING FITS.

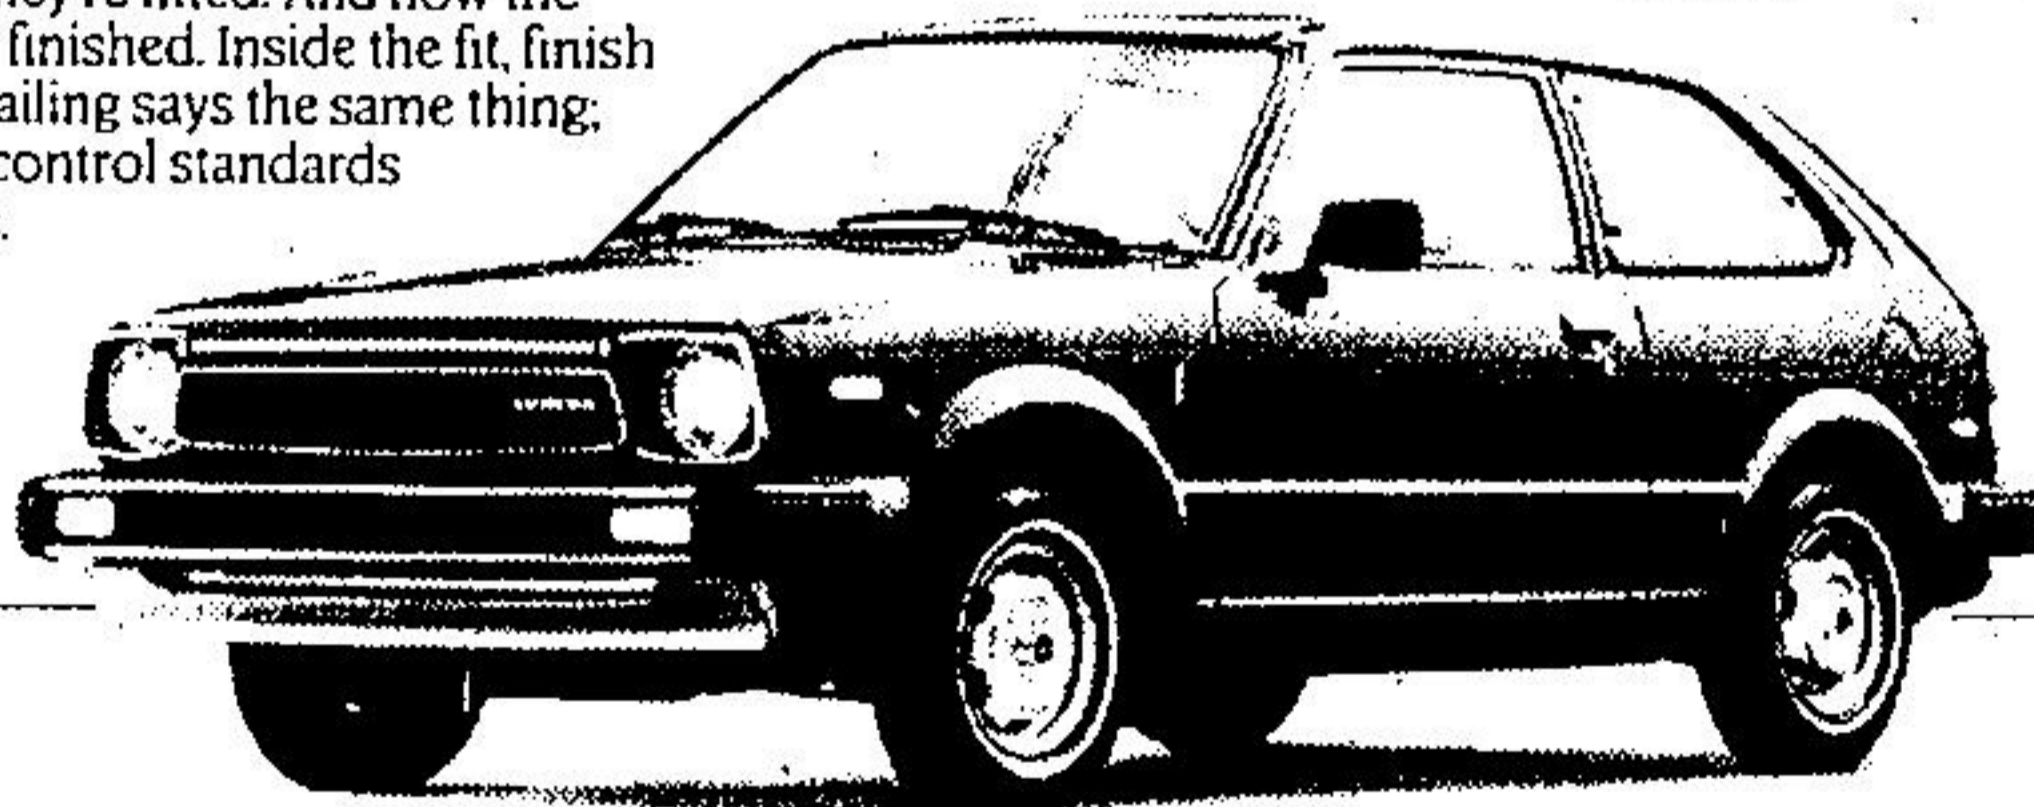

Open the door of a new Civic. Then close it. And notice how snugly it fits and how well everything lines up. Then look at the other body panels to see how impeccably they're fitted. And how the paint is finished. Inside the fit, finish and detailing says the same thing:

Honda's quality control standards are second to none.

LOWER PRICE.

Don't ask us how we did it, but we made the car bigger and better and the price smaller and better. This year's Honda Civic Hatchback actually costs less than the Civic Hatchback did a year ago. Priced from \$4695**.

THE LEGEND GETS BIGGER.
