John McDermid believes your mortgage interest payments should be tax deductible.

The Opposition doesn't think so. That is why you will not receive the benefits on your 1979 tax return. The Mortgage and Property Tax Credit would have benefited 37,500 home owners in the Brampton-Georgetown riding. A Clark Government will re-introduce this Bill, in keeping with their original proposal and home-owners can save up to \$750 in the 1980 tax year. The economy will be stimulated, jobs created, and housing will become more readily available to the average person.
