Hockey Heritage to acknowledge bantam tourney

Hockey Heritage Chairman, Dave Kentner, announced this week the council's plan to honor all the people involved with the Georgetown International Bantam Hockey Tournament over the last twenty years as well as the teams that have participated in it to make it the great success that it is.

Council will present a plaque of recognition to the Lion's club who have sponsored the tournament throughout its 20 year history.

The tournament, which has seen over 50 National Hockey League players participate in it, was made possible by thousands of dedicated men and women during its existence. Kentner said however, that it would be impossible to recognize all the people involved so the plaque will have only the name of the tournament chairman from each year on it which Kentner says will be "representative of all the committee members involved in that particular year."

The plaque will also have the names of the grand champion winners from each year listed beside the names of the chairman. Kentner said "the grand champions are from all over the place and to me this indicates the international quality of the tournament."

The presentation will be made at centre ice, Tuesday, March 18 prior to Georgetown's second game at 8:00 p.m. There will be a press conference in the Lion's Club Hall before the game and a reception there following the game which will be sponsored by Kentners. It will be attended by local dignitaries but Kentner says everyone connected with hockey is welcome.

Dear Fans:

Here are approaching the end of another hockey season and the playoffs fast upon us.

This year has been both disappointing and at the same time very rewarding. The disappointments have been at the gates which have declined to 1978 levels which were great at the time but

not so good to-day with inflation at better than 10 per cent in the hockey world. If in the near future prices from arena and hall rental, travel and equipment don't start to level off, I am afraid that an overall decline in the calibre of hockey will suffer considerably.

Naturally a decline in com-
