

Vacation Guide

Cancun: vacation capital conceived by computer

Photo: Mexican National Tourist Council
CANCUN boasts twelve miles of palm-lined beach, a wealth of spectacular hotels, a championship 18-hole golf course, and enough water sports to satisfy even the most enthusiastic aquaphile.

the ancient walled city of Tulum, where 56 Mayan monuments are well-preserved, and Chichen-Itza, where the ruins date back more than 3,000 years.

Though Cancun is only 14 miles long and a quarter-mile wide, it also contains Mayan ruins.

Visitors can sense the change in centuries by touring the ruins, watching a bullfight, playing golf and dancing to a disco beat. It's all possible on the same day without ever leaving the island.

Vacation values

Because Cancun is a duty-free port, shopping is especially popular among Americans.

An excellent souvenir is the huipile, a billowing white cotton shift with hand-embroidered neckline and hem. Other good buys are sandals, henequen hammocks and rugs, pottery, and filigree jewelry.

Cancun's best restaurants include Mauna Loa, Cancun 1900, Chac-Mool and Romanoff's. Across the bridge to the Yucatan, Giuseppe's imports 90 percent of its Italian fare from the U.S. and seats 850 people at a time (on three levels).

There are many tours and packaged vacations to Cancun, but one of the best is an American Express one-week package that includes your choice of five hotels, transfers, Cancun Bay cruise, baggage handling, gratuities for porters and chambermaids, and some meals (depending on hotel).

Another American Express vacation combines Cancun with Merida and Mexico City—a blend of sun resort, ancient ruins and cosmopolitan city.

And Mexico represents one of the best vacation values around—especially in off-season summer. It's worth checking out.

quality hotels—the Playa Blanca and the Cancun Caribe—went up a year later.

Ideal climate

Today, there are more than 3,000 hotel and condominium rooms available in Cancun and plenty of room for future growth.

Visitors enjoy an annual average of 240 days of sunshine and a mean temperature of 81.5°.

Such weather conditions present an ideal climate for water-sports enthusiasts, including snorkelers who can see through transparent waters at depths of up to 100 feet.

Daily ferry service connects Cancun with Isla Mujeres, an informal island seven miles northeast.

At El Garafon (The Jug), guests can ride giant sea turtles and mingle with multi-colored fish in a natural aquarium. Adventurous visitors can dive 30 feet offshore at El Donatorio to survey sunken wrecks of old pirate ships and galleons.

In addition to Isla Mujeres, day trips from Cancun include

In the language of the ancient Mayas, the name Cancun translates into English as "pot of gold."

Just as Mayan kings made Cancun their holiday capital 1,000 years ago, vacationers of many varieties are finding the tiny Mexican island much to their liking.

Located in the Caribbean off the extreme northeastern tip of the Yucatan peninsula, Cancun's current status as a successful resort is hardly surprising.

After all, the site was selected by a computer which had been fed sea, shore and weather conditions on multiple spots along Mexico's 9,900 miles of coastline. Proximity to the North American market was also considered.

Promoted by the Mexican government, and sponsored by both government and private developers, Cancun was transformed from a sleepy, jungle-strewn fishing village of a few hundred to a thriving vacation haven.

Construction began in 1973, six years after the first data was digested by the Mexico City computer, and the first two

Brick and aluminum bungalow, huge fenced lot, attached garage, lovely eat-in kitchen, and authentic barnboard room. It is a beauty. Call Sandra Nairn.

From near and from far...

Diversity of attractions draws all ages to Disney World

When Walt Disney opened his first theme park, in Anaheim, Ca. in 1955, he said, "Disneyland will never be completed."

That same philosophy applies to Walt Disney World, Disneyland's sister park, which opened near Orlando, Fla., in 1971.

Already the largest theme park complex in the world, Disney World offers more than 50 attractions, 75 restaurants and shops, 1,500 on-site hotel rooms and its own transportation systems.

It is not only a theme park, divided into six individual sectors, but also a sports and vacation destination of considerable appeal even to visitors who wouldn't think of boarding the Space Mountain coaster.

Individual sectors
Sectors within the theme park, known as The Magic Kingdom, include Main Street USA, Adventureland, Frontierland, Liberty Square, Fantasyland and Tomorrowland.

Water-oriented rides are available outside the main park in River Country, a recreational branch of the Disney World camping ground, Fort Wilderness.

Two on-site hotels, the Contemporary Resort and the Polynesian Village Resort, are linked to The Magic Kingdom by monorails. There's also

steamboat service to The Magic Kingdom from a dock adjacent to The Polynesian Village Resort.

Peace and serenity

The Golf Resort, linked to The Magic Kingdom and Fort Wilderness by shuttle bus, provides the peace and serenity golfers enjoy, plus proximity to recreational pastimes some golfers' families prefer.

Other nearby accommodations are available in vacation villas and in the hotel plaza of Lake Buena Vista, a community with a shopping village dominated by New England-style boutiques.

World of the future

By October, 1982, a World Showcase and International Village will open in the Future World Theme Center, part of Disney World's Experimental Prototype Community of Tomorrow (EPCOT).

Conceived by the late Walt Disney as a world of the future to be used as an example for the world of today, EPCOT is expected to serve as a forum where creative people in science, industry, government and the arts can share ideas and demonstrate new systems.

Visit outer space

Among domestic sponsors of the project is American Express, which will share a pavilion to be called "American Adventure." The American Express Card is honored at both Disney theme parks.

The future is already the present at The Magic Kingdom's Space Mountain, where a three-minute indoor circuit simulates a high-speed rocket journey through space. It's not for the faint-hearted—especially those who need to

CINDERELLA CASTLE—Focal point of Walt Disney World's Magic Kingdom is this 18-story castle with its golden spires. Inspired by several famous French palaces, Cinderella Castle houses King Stefan's Banquet Hall and five glass mosaic murals retelling the famous story of the glass slipper.

see what twists and turns lie ahead. Space Mountain is dark inside; the sun doesn't shine as brightly in the dark reaches of outer space.

Among other prime attractions of Walt Disney World's theme park are the Haunted Mansion, Pirates of the Caribbean, Hall of Presidents and Small World.

Lavish settings
None can be called a "thrill" ride, but all include lavish settings, plus such sophisticated techniques as "Audio-Animatronics," an audio-visual technique created by Disney engineers to bring three-dimensional figures to life.

Though Disney World is now in its tenth year, the enthusiastic reaction of visitors has hardly diminished.

There can be crowds at peak periods, including school vacations and holidays, but well-trained park personnel have proven adept at relieving traffic jams.

Free attractions
Free attractions, including parades and appearances by Disney cartoon characters, help keep lines short.

Tickets include unlimited use of the transportation system between the main entrance and The Magic Kingdom (including hotel stops) and free admission and coupons for various attractions.

Package plans
Package plans are available from Eastern Airlines and several area hotels. American Express offers a Walt Disney World Package called "Orlando Express." Four or seven nights accommodations at your choice of hotel and an Alamo Rent-A-Car with unlimited mileage for four or seven 24-hour periods, as well as a Walt Disney World attraction ticket book per person.

For further information, see a travel agent.

Sun, surf and deserted islands

WHILE YACHTING to the Bahamas, why not take a respite on the shore of one of many deserted beaches? Relax, enjoy the warmth of the tropic sun and warm your skin to a golden brown.
