## The Energy Crossword Puzzle

1. Each of the following words is a source of energy. Circle each word in the puzzle when you find it. Some are vertical, some horizontal, and some diagonal.

- gasification
- electricity
- nuclear
- solar
- solar cell
- oceans
- domestic
- petroleum
- coal
- gasoline
- man
- natural gas
- river
- wood
- hydropower
- kerosene
- food
- methane
- propane
- breeder

- green plants
- manure
- oil
- geothermal
- sun

- tide
- earth
- 2. Now mark with an "X" each word which you don't understand. Ask

your parents, older brother or sister, or your teacher to help you find out what these words mean. Or look them up in a dictionary or encyclopedia.

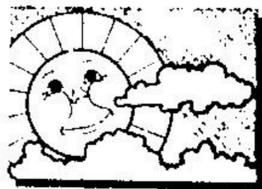

G	A	S	I	F	I	C	A	T	I	O	N	N

G	A	S	O	L	I	N	E	C	O	A	L	N
M	A	N	P	E	T	R	O	L	E	U	M	S

## Fun with the Sun

The sun can make you very hot in the summer. But can the sun help heat your home in the winter? To find out, try the following experiment.

- You Need:**
- a cardboard box (a shoebox is fine)
  - a thermometer
  - clear plastic wrap
  - black cloth, or paper, or paint
  - tape
  - a piece of white cloth

- Method:**
- 1) Using the paper, cloth, or paint, blacken the inside of the box.
  - 2) Tape the plastic wrap across the open top of the box. The plastic sheet should be smooth and wrinkle-free.
  - 3) Punch a small hole in

one end of the box and slip the thermometer part-way into the box, bulb end first.

- 4) Place the box in a sunny spot so the plastic top faces the sun.
- 5) Check the temperature in half an hour. What has happened?
- 6) Now repeat the experiment with the sun box, but put the cloth over the plastic "window". Did the temperature climb as fast? Why not?

**Do You Know?**

1. If you wanted to make a room warmer on a sunny

2. If you wanted to cool the room on a sunny day, what could you do?
3. If you were building a new house and you wanted to capture the sun's heat, where would you put most of the windows?

ANSWERS:  
FUN WITH THE SUN

1. If the window faced the sun, you could open the curtains. This saves energy because your furnace doesn't have to work so hard - the sun supplies some of the heat.
2. Close the curtains.
3. On the side (south) facing the sun.
