

## About the Hills

### CVCA building firebreaks

The Credit Valley Conservation Authority (CVCA) has a number of forest conservation areas throughout the Credit River watershed. Because these forests are susceptible to fire during the summer months, the forestry crews of the CVCA have been working to build firebreaks around these areas. The crews build fire roads through the areas, and keep them free of long grass and weeds. The forestry crews also maintain the experimental poplar plantation at Silver Creek, the nut plantation at the Orangeville reservoir and the erosion control nursery at Meadowvale Conservation Area.
