ONE-AND-ONE-HALF STOREY CONTEMPORARY

This strikingly handsome three bedroom contemporary design derives maximum function and convenience from its medium-size floor area. It is perfectly suited to the medium frontage residential building lot, and provides in excess of 1,600 square foot of finished floor area. The stylish exterior, finished in stucco and fieldstone with heavy shake roofing, presents an appealing low-profile facade with great visual impact, which would make a welcome addition to any urban or rural development. For those who prefer, the exterior could easily be finished in a wide variety of sidings and decor trims, and the roofing would easily be finished in more traditional shingles.

The deeply weather-protected entry leads into a compact reception foyer, past the stone veneer fireplace wall and down two risers into the convivial sunken living room. Straight forward from the entrance foyer takes traffic down two risers into the large kitchen-family room complex. The kitchen has a well-planned U-shape configuration, which separates from the large family room via convenient snack-bar counter for casual family meals. The family room connects to the rear patio via convenient sliding glass walk-through, as does the formal dining room.

Off the family room is conveniently positioned the two-piece vanity bath, ample storage closets and the laundry facility, with side-by-side washer-tub-dryer.

An enclosed two-car garage, with space for an internal workshop, and an overhead attic storage, completes the downstairs services of this fine home design.

All three bedrooms are positioned around the central bathroom and linen storage area on the second level, and all have excellent exposure for view and natural light, and generous closet storage facilities. The large master bedroom has a full-width closet, with access to the attic storage, and a three-piece ensuite bathroom with tub.

A highly practical and functional floor plan which provides the medium-size family with all of the modern conveniences in a highly appealing package.

A variation of this plan, (numbered 77-1616) having a full basement, may be ordered. Plans for design No. 76-1616 may be purchased either by the single set, at a cost of \$85.00 for the first set and \$20.00 for each additional set, or by the package. A live-set plan package, including the first set, is economically priced at \$145.00 and an eight-set package, also including the first set, is only \$175.00.

Whichever method you choose, please include \$5.00 for postage and handling. Ontario residents please add 7% sales tax.

Send for the current edition of Select Home Designs magazine, series 46, featuring imaginative decorating and home improvement ideas, plus 250 quality home plans of every type. Available for \$2.75 (\$2.00 plus .75¢ postage and handling).

To order any of these items please send cheque or money order, payable to the Home of the Week. Address to: Home of the Week, C/O The Halton Hills Herald, Suite 201, 881A Jane Street, Toronto, Ontario, M6N 4C4.
