CANADA PERMANENT

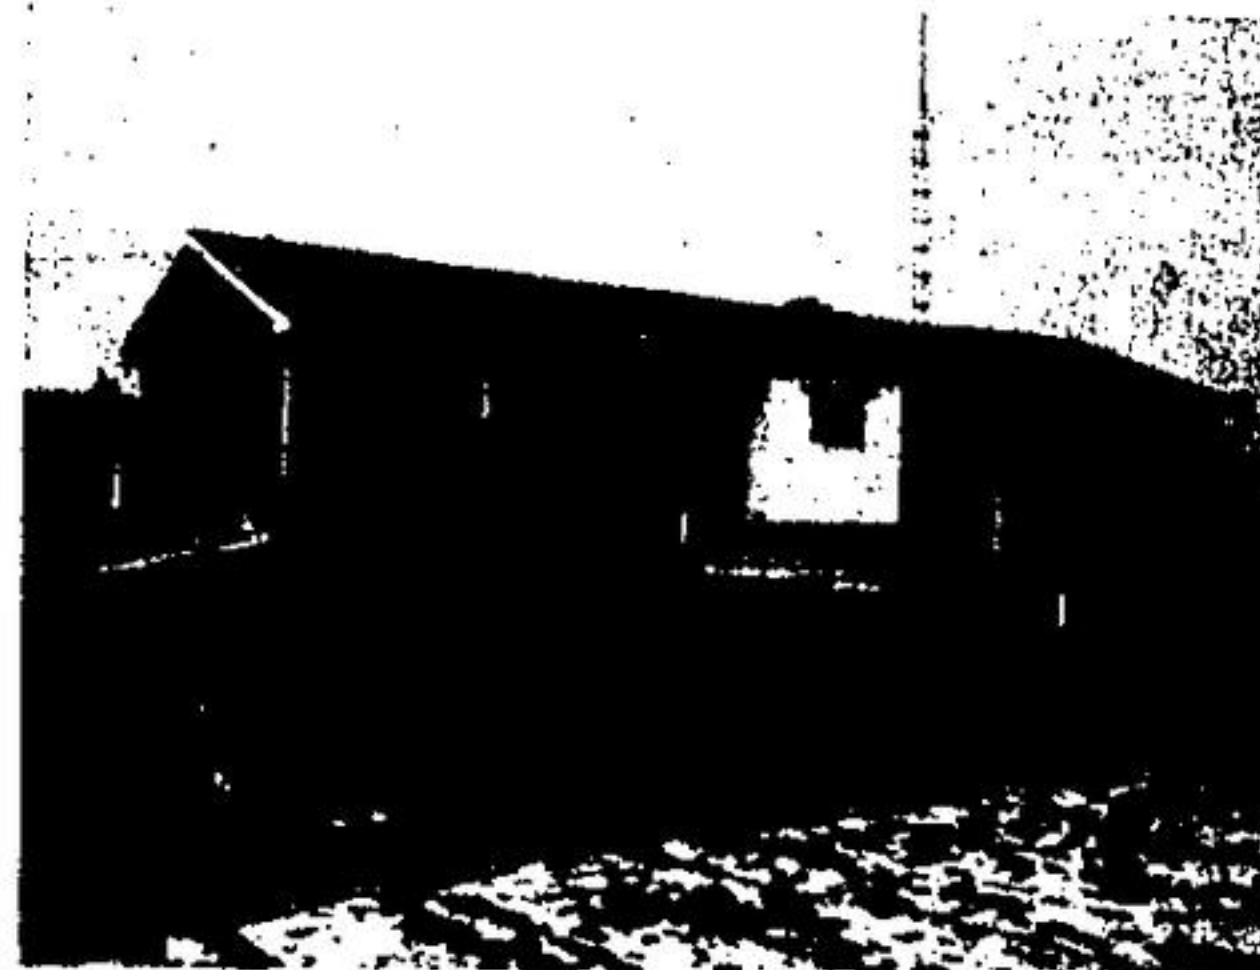

Home of the Week

Gardener's Paradise

With the high cost of food and the urgency to save on gas, this 3 bedroom, brick and siding bungalow on 1/2 acre, just south of Georgetown, minutes from the 401 and Brampton, will delight any country property seeker with a craving for gardening. The attached two car garage makes this home ideal for the

commuting family. The home is located on a private road, just off a main paved road. Making it safe for children in a young family. This home is ready for your inspection now through Canada Permanent representative Rudy Cadieux at 877-8244 or 792-8111.

Although most of the land is beeing used to grow your vegetables, some of the area has been saved for the children to play.

Which are you fond of? Strawberries, raspberries, apples, pears or cherries. No matter which it is, you can pick it fresh in your own yard.
