## SOCCER

By ALEX TOUGH

Although we have yet to complete this year we are already thinking of next season and what things are necessary and possible in practical terms to improve our soccer.

Improvement is always possible and is something to attempt all the time. One item is the perennial search for executive and commissioners, and coaches and managers. To this end we have appointed a nominating committee under Jean Belshaw, to look at possible persons to fill our executive and administration posts.

This is at youth level of course, as the Falcon, Eagle and Meteor clubs are independent of each other.

Some of us are convinced we should have but one club in town and hope to hold off season talks to see if this is a mutual desire and, if so, how can the amalgamation be achieved. There are several types of soccer involvement in the area and it would be a mistake to jump in without considering all the angles and motives of each organization.

Another matter for consideration is a thought to amalgamate soccer in Halton Hills at competitive level for youths - perhaps minor teams playing "home" in one town and major teams in the other. A combination of Acton and Georgetown might produce more competitive teams and more competition for places on the teams.

Out 9th October dance tickets are now available and may be had from: Jean Belshaw (877-2897), June Wilde (877-2554), Pat Johnston (877-1259) and George Howie (877-8962). Do not ask me what the price is, I was not told! We should have a good evening whatever it is!

We only have the mosquito selects going to Orangeville on the 19th and Klaus Zander is looking after the lads. Some of the peewees will be with Jack White that day and we could not obtain an atom coach at such short notice. The Wildcat squirts of Dave Manning will be at the Croatian Centre on Winston Churchill on the same day appearing in the Peel-Halton recreational team cup final.

## Rec. Dept. programs

The Halton Hills Recreation and Parks Department is offering a wide variety of Fall Programs. Here are just a few: Learn to Skate, Power Skating, Gymnastics, Coaching Courses - Theory I and II, Technical Hockey I, II, III, and Technical Gymnastics Level I.

In addition Fitness classes will be held at various locations in the community so that all can take part! These programs commence Monday, September 21, so hurry and register now at either Recreation office, weekdays from 8:30 a.m. to 4:30 p.m., Georgetown - 25 James Street; Acton - Municipal Office, 40 Mill Street.

Kick off time is not known at the moment. They had a backs to the wall fighting finish against Oakville's No. 1 team away last Monday. A superb display was put on by the boys whose determination to win the day was evident from the first whistle.

Six corners were forced in the first 10 minutes as well as two saves. Oakville then went on the attack and in 14 minutes we broke out with a long left wing run and good passing in front of goal to produce what turned out to be the winning, and only, goal of the game. Came the 17th minute of the second half before Oakville's first shot at goal, which went narrowly past the opposite post.

One minute later a crucial first save to the Wildcats goalie did much to preserve a well deserved victory. The game ended with Oakville desperately trying to get back into the game, and it was on their 7th consecutive corner that all Georgetown hearts went back to their rightful places as the final whistle blew.

## INTER-COUNTY

The Inter County league best of three finals in 1st and 2nd division should start this evening at Cedarvale with Meteors in both finals. Meteors defeated Acton 4-1 in the 1st division semi as ICCM Alpin were leading the Mariners 4-0 with 20 minutes left to play when the referee stopped play due to very bad light conditions.

As I write no decision was taken on the repercussions, although the league rules indicate a re-cast game is necessary (and may have been arranged by the time this gets into print).

The 2nd division Meteors had a runaway win over Milton Rangers in their semi final scoring 11 to 3, the big difference being in the goalkeeping during the first half.
