President's Message

I would like to take this opportunity to congratulate the Kinetite Auxiliary of the Association of Kinsmen Clubs for its contributions to our country and our association over the past 40 years.

During the Second World War, with a shortage of manpower, the Association was greatly assisted by the wives of Kinsmen, who pitched in and made a great contribution to Canada's war effort.

Since 1945, the association has grown to over 600 clubs in Canada, largely through the help of Kinetites.

Our Kinetites have raised millions of dollars for such major projects as mental and physical rehabilitation, the Unitarian Service Committee, multiple sclerosis and cystic fibrosis research.

During the past Kinsmen year, the total value of goods and services provided to Canada by the association of Kinsmen Clubs was over \$48½ million.

Kinetites and Kinsmen are active beyond our own country as well. They contribute to international projects each year.

For example, this year a Juvenile Observation Centre is being sponsored in Panama.

During the past two years, Kinetites have been working with the Canadian Diabetic Association in helping to educate Canadians about sugar diabetes.

Kinetites and the Canadian Diabetic Association are trying to let people know what causes this illness, what the symptoms are and how people with sugar diabetes can live useful lives.

The Association of Kinsmen Clubs is a family organization. For 62 years, these young women and men have worked tirelessly to serve the greatest needs of Canadian communities.

The teamwork of these women and men has made a significant mark on our Canadian history.

I am certain that as we progress into the 80's the positive attitude to the challenges of the latter part of the 20th century will be met with the same degree of fortitude displayed during the earlier part of the century.

Ladies, we are proud to be associated with you.
