

**ASTRO
ADVICE.**

by Eugenia
Witham

**Emotional ups
and downs**

Dear Eugenia,
What does the near future hold? Distant future?
Birthdate, June 7, 1947; Place, Toronto,
Ontario; Time, 10-11 a.m.
Partner's Birthdate, September 29, 1941; Place,
England; Time, Unknown (morning I believe).
Daughter's Birthdate, May 21, 1970; Place,
Mississauga, Ontario; Time, 5:59 p.m.
Son's Birthdate, June 27, 1974; Place, Missis-
sauga, Ontario; Time, 4:07 p.m.

Interested Individual
Dear Interested Individual,
Over the last seven years your chart has been
afflicted at the emotional level by the planet
Uranus. This would cause sudden disruptions and
unavoidable changes where home environment,
relationships, position in society and personal
outlooks and attitudes are concerned.

Your chart is beginning to clear up in these
areas and things will be much better over the next
seven years, and during the next two years you
should stabilize and start enjoying life once again.
Socially, you will be involved in more activities,
travel, and possible moves, however watch finan-
cial investments and spending as you are likely to
over-extend yourself.

Your partner's chart is actually quite good,
however without an accurate time of birth it is
difficult to suggest which areas of life are involved. I
feel that over this past year he has been somewhat
erratic. This could be pertaining to financial
matters.

He is up for some unavoidable changes that may
upset him, however the end result of these changes
will prove to be to his advantage in 1983.

Your daughter is also going through some
emotional changes. Her attitudes and opinions are
erratic and she is somewhat confused. This
emotional confusion will continue on and off over the
next year; however after that she will start to
stabilize. A change of environment would be
beneficial in the long run and should be considered.

She will more than likely leave home at an early
age possibly to get married, however unless this is a
financial gain for her she may not be content.

Your son has had some limitations over the past
year and a half and is also undergoing some
emotional upset. This will be coming to an end in
another year as well. Changes will be occurring in his
home environment over the next few years. These
changes should help stabilize him with a positive end
result.

CAREER PROSPECTS

Dear Eugenia,
I'm wondering if my career looks brighter
ahead. Can you see anything in my chart? I was
born Feb. 20, 1961, at approximately 8 a.m. in
Milton.

Troubled Salesman

Dear Troubled Salesman,
During the past year your work environment
and travel have been somewhat unsettled. This has
caused some limitations for you at an emotional and
financial level. Although emotionally, it appears to
be getting better now you must be cautious until
December of 1983.

There will be continued disruptions at work and
as far as depending on established individuals for
help forget it for the time being as only hard work on
your part will pay off. You would be better off to
work quietly behind the scenes.

There will be favorable aspects from the planet
Jupiter for hidden gain and dealing with other
people's money beginning Nov. 30, 1982 until May 21,
1983 and once again between Aug. 11, 1983 until Nov.
14, 1983 so use this period to your benefit and things
won't appear to be so bad.

SUDDEN WEALTH?

Dear Eugenia,
My date of birth is Sept. 23, 1939 at 1:35 a.m. I've
had this feeling that I'm going to have a lot of money
soon, can you tell me if this is wild imagination or
not. Also I'm married, is my marital problem going
to work out okay.

Yours truly
M.T.C. Libra

Dear M.T.C. Libra,
You did not state your place of birth making it
difficult to be positive as to the accuracy of your
chart. I do feel however, that at an emotional level
and within relationships and home environment the
past few months have been quite difficult causing
limitations, frustrations and a cooling of relation-
ships.

This will continue until Oct. 12, 1983. Things will
start improving socially around Dec. 22, 1982 and
continue until Feb. 4, 1983. This same aspect will
once again return May 21, 1983 until Oct. 2, 1983.
This should give you opportunities concerning
travel, knowledge and partnerships.

Your attitudes and opinions will change and the
end result should be positive. Your feeling about
having a lot of money is not that wild, however I
believe that it might come through investments, or
gambling at the right moment.

By the way, in 1939 the Sun was still in Virgo
until Sept. 24 making you a Virgo not a Libra. If you
look at your daily horoscope read Virgo and Cancer
from now on for more accurate information.

**Truck obstructs view,
driver sent to hospital**

An afternoon accident
took Georgetown driver
James Thompson to Mil-
ton District Hospital
Thursday with minimal
injuries.

Mr. Thompson was
southbound on Martin St-
reet, turning left into
Maplehurst Correctional
Institute. An Oakville
driver was northbound on

Martin and not seen be-
cause of a big truck posi-
tioned in the passing
northbound lane, turning
left.
The truck limited Mr.

Thompson's view, accord-
ing to Halton regional
police reports. There was
\$1,400 damage.
Don't put wet clothes in
the laundry bag or hamper.

GIFTED WRAPPED

Pamela Goy, 3, was gift-wrapped and ready to be
presented. Here, father Jeff holds his daughter to
shoulder level just before it was time to take her to a
waiting Christmas tree on a float for the Acton Santa
Claus parade.
