Rust-Rebel

It's a fact: many new cars have already started to rust before the purchaser drives them home. Even so, some rust-proofers simply cover over existing rust so the rust protection never reaches the metal itself. The Rust-Rebel 2-step process neutralizes existing rust first, so its important protection reaches the metal. Then the second step strategically seals out air, salt and moisture from high-stress areas.

'Even if your car isn't new, you can still protect it from deteriorating rust.'

Not many companies will guarantee a used car against rust. But Rust-Rebel rustproofing includes both a rust neutralizer that attacks existing rust . . . and a powerful rust protector that seals out future rust. So your car may qualify for our rustproofing warranty even if it's already a couple of years old. Find out now if Rust-Rebel can help increase your car's life and value.

New Matizing

You may have tried shampooing or steam-cleaning your car's interior with inadequate results. Even so, you still may be able to regain the original luster of interior fabrics with New-Matizing. It makes sense to use dry-cleaning to get better results. In fact, with New-Matizing you may even qualify for a used car guarantee against permanent staining. Find out the details. Call a Tidy Car "pro" for a free consultation.

Upholstery Guard

It leaves your fabric easier to clean, resisting imbedded grime. With less imbedded grime, there's less "sandpaper" effect from dirt rubbing against the fabric. . . less wear and tear on the fabric itself. And, up to 50% longer life than untreated fabrics. Longer life, more trade-in value, better-looking protection and a superior warranty. Call us today for an appointment to protect your car!

Preserve-a-shine

One Preserv-A-Shine treatment, plus an annual resealant and your car's showroom shine is always protected. It's guaranteed in writing!
