NE 9910 DIMENSION 3 MICROWAVE/CONVECTION OVEN

Panasonic presents the best features of both microwave and convection cooking! The NE 9910 is a 3-way oven, enabling you to cook by microwave alone, convection alone, or combination microwave/convection. This incredible oven has six variable microwave power level settings, plus a new cyclic Defrost/Standby Time function for even thawing. It also features a versatile temperature probe, and Temp Hot Hold setting to keep foods warm. And it has all these other great features: 3-Stage Memory, Delay/Stand, Multifunction Digital Clock/Readout, Touch Controls, Recall function, warming and baking rack, see through oven door, and a large, continuous-cleaning interior.
