IMPRESSIVE TRADITIONAL TWO-STORY WITH FOUR BEDROOMS

This stately one-and-one-half storey home design is perfectly suited to the medium frontage residential building lot and provides nearly 2,000 square feet of well-planned finished floor area for the medium-sized family. The imposing Tudor-style exterior is finished in stucco and barge board trim, with brick veneer accents and a shake roof. For those who prefer, the roof could be alternately finished in more conventional shingles.

The deeply weather-protected main entry leads traffic down the short hallway and up the partial stairway to the elevated rectangular living-dining room combination. The living room features an accent wall dividing the dining area and stairway, and an optional spindle screen wall facing the reception foyer. The dining area has a pass-through counter from the kitchen for convenient meal serving.

The spacious U-shape kitchen has a step-saving work triangle, generous countertop work surfaces and abundant cupboard storage. The kitchen is open to the spacious dinette area, which latter divides from the large family room by means of an optional screen wall and partial stairway. The family room features a raised-hearth masonry fireplace and sliding glass doors leading onto the wide rear-facing patio.

A two-piece vanity bathroom and a spacious laundry-utility room are accessible from the family room. The laundry-utility area features an side-by-side configuration of washer-tub-dryer. Opposite the vanity bathroom lies the stairway to the unfinished partial basement positioned beneath the living-dining area. Additional recreational and lounge facilities may be developed here at some later date.

All four bedrooms are positioned on the topmost level, accessible via short stairway from the hallway opposite the dining room. Each has ample closet storage and excellent exposure for view, ventilation and natural light. The front-facing master bedroom has a full walk-in closet and a two-piece vanity bathroom behind a space-saving pocket door.

The master bathroom divides the tub, commode and one vanity sink from a second vanity sink, for greater flexibility during peak traffic periods.

A double enclosed garage with internal access to the main hallway completes the convenience features of this stylish and practical home design.

Plans for design No. 76-1939 may be purchased either by the single set, at a cost of \$135.00 for the first set and \$26.00 for each additional set, or by the package. A five-set plan package, including the first set, is economically priced at \$195.00 and an eight-set package, also including the first set, is only \$235.00.

Whichever method you choose, please include \$9.00 for postage and handling. Ontario residents please add 7% sales tax.
