## SOLID WOOD — SOLID VALUE

### ECONOMY

Complete waterbeds are less expensive than continental box spring and mattress, and last longer.

### QUALITY SLEEP

The semi-weightless sensation of sleeping on a waterbed makes for deeper more relaxed sleep. You fall asleep faster and wake up rested even after less sleep than you may have needed on your old mattress.

A  
WATERBED  
IS...

### MEDICAL BENEFITS

Many pregnant women find sleeping much easier on a waterbed. In addition, certain types of backaches are given relief on a waterbed. Due to the buoyancy provided by the water it is easier to roll over, making the bed ideal for partially disabled or elderly people.

### WARM IN WINTER COOL IN SUMMER

During the hot summer months, simply turn your heater down a few degrees for cool, restful sleep. In winter turn it back up and it's like being surrounded by a warm electric blanket.
