

'Plumbing Store' does it all

Experience matters

If you're a do-it-yourselfer or just wish that you were, The Plumbing Store will provide you with all the service and know-how that you need, says manager Don Shaw. He, his wife Gale and Gale's mother, Dorothy Gilmore own The Plumbing Store at 330 Guelph Street in Georgetown.

Mr. Shaw tries to keep a full line of fixtures and repairs in plumbing, heating and electrical equipment. He feels that his commercial and industrial supplies provide a much more complete line than most other plumbing stores.

Mr. Shaw emphasizes how his store may be more knowledgeable than others. After 23 years in the plumbing business, one is inclined to believe him.

The fact that he has lived in Georgetown for 15 years and that The Plumbing Store is family owned and run contributes to a personal touch, says Mr. Shaw. If a customer wants to build his own bathroom, Don claims to have all the parts and experience to help him.

The Plumbing Store has been in operation for about three years now. Mr. Shaw and his trained staff can give the extra value of knowledge and expertise with your plumbing purchase.

Early signs

You can avoid expensive problems by knowing the early warning signs of a damaged roof.

Leaks, unseen moisture and seepage can rot roof boards and rafters, reduce the effectiveness of insulation, and ruin stored possessions if a damaged roof remains unrepaired.

Since most homeowners may never have had to replace a roof, they are frequently not as well informed as they could be about available materials, their characteristics and costs. Hasty or uninformed decisions could be costly in the years to come.

Putting a roof over your head is no longer a simple matter of selecting a durable material at an affordable price.

The wide variety of colors, styles and textures currently available adds a new dimension to roofing selection which homeowners will want to consider.

A thorough examination of your roof will help you decide whether it is ready for retirement or simply in need of minor repairs.

The Plumbing Store at 330 Guelph St. is backed by his 23 years of experience in the plumbing business.
