This front-to-rear split level home design provides in excess of 1,500 square feet of well-planned finished floor area, for present use, and more than 400 square feet of un-finished recreation area beneath the bedroom level, for future development. The design is perfectly suited to the medium frontage residential building lot, and the facade would blend into any residential development. The stone roof, twin fieldstone chimneys and deep verandah are reminiscent of the western ranch house; while the small-paned windows, sculpted garage door and front-facing patio recall a more formal country estate home.

All three bedrooms are positioned around the central bathroom and linen storage facility on the second level. The partial basement beneath the bedroom level provides abundant space for the future development of a spacious family room, or other recreational facilities, according to individual family preferences.

Plans for design No. 80-1547 may be purchased either by the single set, at a cost of \$135.00, or as a five-set package, economically priced at \$195.00 or an eight-set package at only \$235.00. Whichever quantity you choose, please add \$9.00 for postage and handling.

Send for the current edition of Select Homes magazine, series 59, featuring imaginative decorating and home improvement ideas, plus 130 top-quality home and cottage plans of every type. Available for \$3.25 (\$2.00 plus \$1.25 postage and handling).

To order any of these items please send cheque or money order, payable to the Home of the Week. Address to: Home of the Week, c/o The Halton Hills Herald, Unit 1, 151 Carlingview Drive, Rexdale, Ontario, M9W 5E7.
