Recently, I asked Lou Panchak, our frozen juice buyer, why he never featured frozen grape, or apple juice at half price. His reply was "because apple and grape concentrates are very expensive to freeze into frozen orange juice." To which my reply was, "wouldn't the President's Sale be a great time to put those people who drink apple and grape juice at a price lower than...?" And you want me to buy and freeze orange and grapefruit as well as apple and grape at the same low price of...? We've included a generous line of concentrates (any combination of orange, grapefruit, apple, or grape) to encourage you to try our frozen concentrates.
