

HALLOWEEN

October 31st, 1983

EVEN WITCHES AND GOBLINS CAN USE OUR HELP...

Let's Be Careful Out There!

Monday is the night when all those little ghosts and goblins come out to roam our town. If you're intending to send your little ghouls out this Monday, please make sure he or she wears something bright. It's hard for an oncoming car to spot a small child in the dark. Headlights reflecting off bright clothing are more visible than off dark clothing. If you can, use make-up for the kids instead of a mask. A mask can obstruct the child's vision.

SOME SUGGESTIONS

- Make sure young children are properly chaperoned.
- No pieces of loose clothing dragging on the ground that kids might trip over, and not too bulky or too tight.
- Inform kids not to go through dark alleys or on unlit streets.
- Avoid crossing busy streets.
- Make use of the sidewalks and crosswalks.
- Avoid unlit homes.
- Have your children on "shell-out" in safe areas familiar to them if they are going out by themselves.
