

One sure sign that spring is in the air is when the community starts thinking about planting their gardens. Two ladies from Royal City organized a garden demonstration and talk by Art

Bouwman of Bouwman's Nurseries. Maud Breckmann (left) and Sue Graham are seen here with Art Bouwman with a variety of evergreens to brighten your garden.

## Refreshing ideas for home care

Odor control specialists say that the study of odors and human sensitivity to them is a relatively new field of study and that much of the science of odor control is still a mystery to us.

However, most people will agree that certain kinds of odors are disagreeable and unpleasant while others are pleasing. The fresh scent of a clean, well-kept home can be inviting and is often the first thing noticed when entering a home.

Assurance that the home is free of malodors comes through cleanliness and frequent exposure of rooms to fresh, outdoor air. But in some climates, it is not always practical to open windows and doors.

### Fragrant fresheners

Air fresheners help dispel stale odors and provide a pleasant atmosphere. Their fragrance can lend personality to a single room or an entire home or office. It can be mood-setting or strictly functional.

It is important to remove odor sources whenever possible and to keep the home dry.

For example, empty ash trays putting hot ashes in a covered metal container. Also empty garbage containers and wastebaskets to help eliminate odors and to discourage insect pests.

In the kitchen, use a ventilating hood to exhaust cooking fumes and help keep

greasy cooking film from settling on kitchen surfaces.

Keep the oven, cooktop and ventilating hood free of greasy soil. Use a quick burst of Glade Aerosol air fresheners to help remove odors from cooked cabbage, onions, seafood, etc.

Bathrooms, probably one of the most frequently used rooms in the home, provide an ideal environment for excess humidity which can trap and hold malodors.

Therefore, it is especially important to choose an air freshener that works continuously. Glade Spinfresh is unique because it doubles as an air freshener and as a holder for bathroom tissue. Hidden from view, it works silently and continuously without cluttering valuable counter space.

Odor control experts generally agree that certain fragrances do a better job of masking specific malodors than others.

### Special scents for special jobs

For example, floral and sweet scents seem to do the best job of nullifying solvent-type odors while the herbal and citrus scents are most effective against food and cooking odors.

But since individuals will have different perceptions of the various scents and their effectiveness for control of certain malodors, it is best to try different fragrances to locate those that are personally pleasing.

## Garden forum explains 'how-to'

### Herald Special

The first garden forum sponsored by Sue Graham and Maud Breckmann of Royal City Realty Ltd., was well attended. Well known local gardening expert, Art Bouwman, brought many shrubs, trees and perennials to show and to demonstrate pruning and general gardening care.

A lucky draw was held and refreshments were served following the seminar.

Winners of the draw: 1st. a Wichita Blue Juniper, was won by J. Hayes of Hale Drive., 2nd. a Burning Bush was won by Mrs. C. Zorychta of Erin and 3rd a Firethorn was won by Doris Tretter of Terry Court.

## Start spring cleaning in the bedroom

When you start spring cleaning, check your family's bed pillows. If they are flat, lumpy, matted, stained or smelly, they should be replaced for reasons of health, hygiene, aesthetics and comfort. Consider fresh, clean, huggable, scrunchable new "Quallofil" pillows for your family.

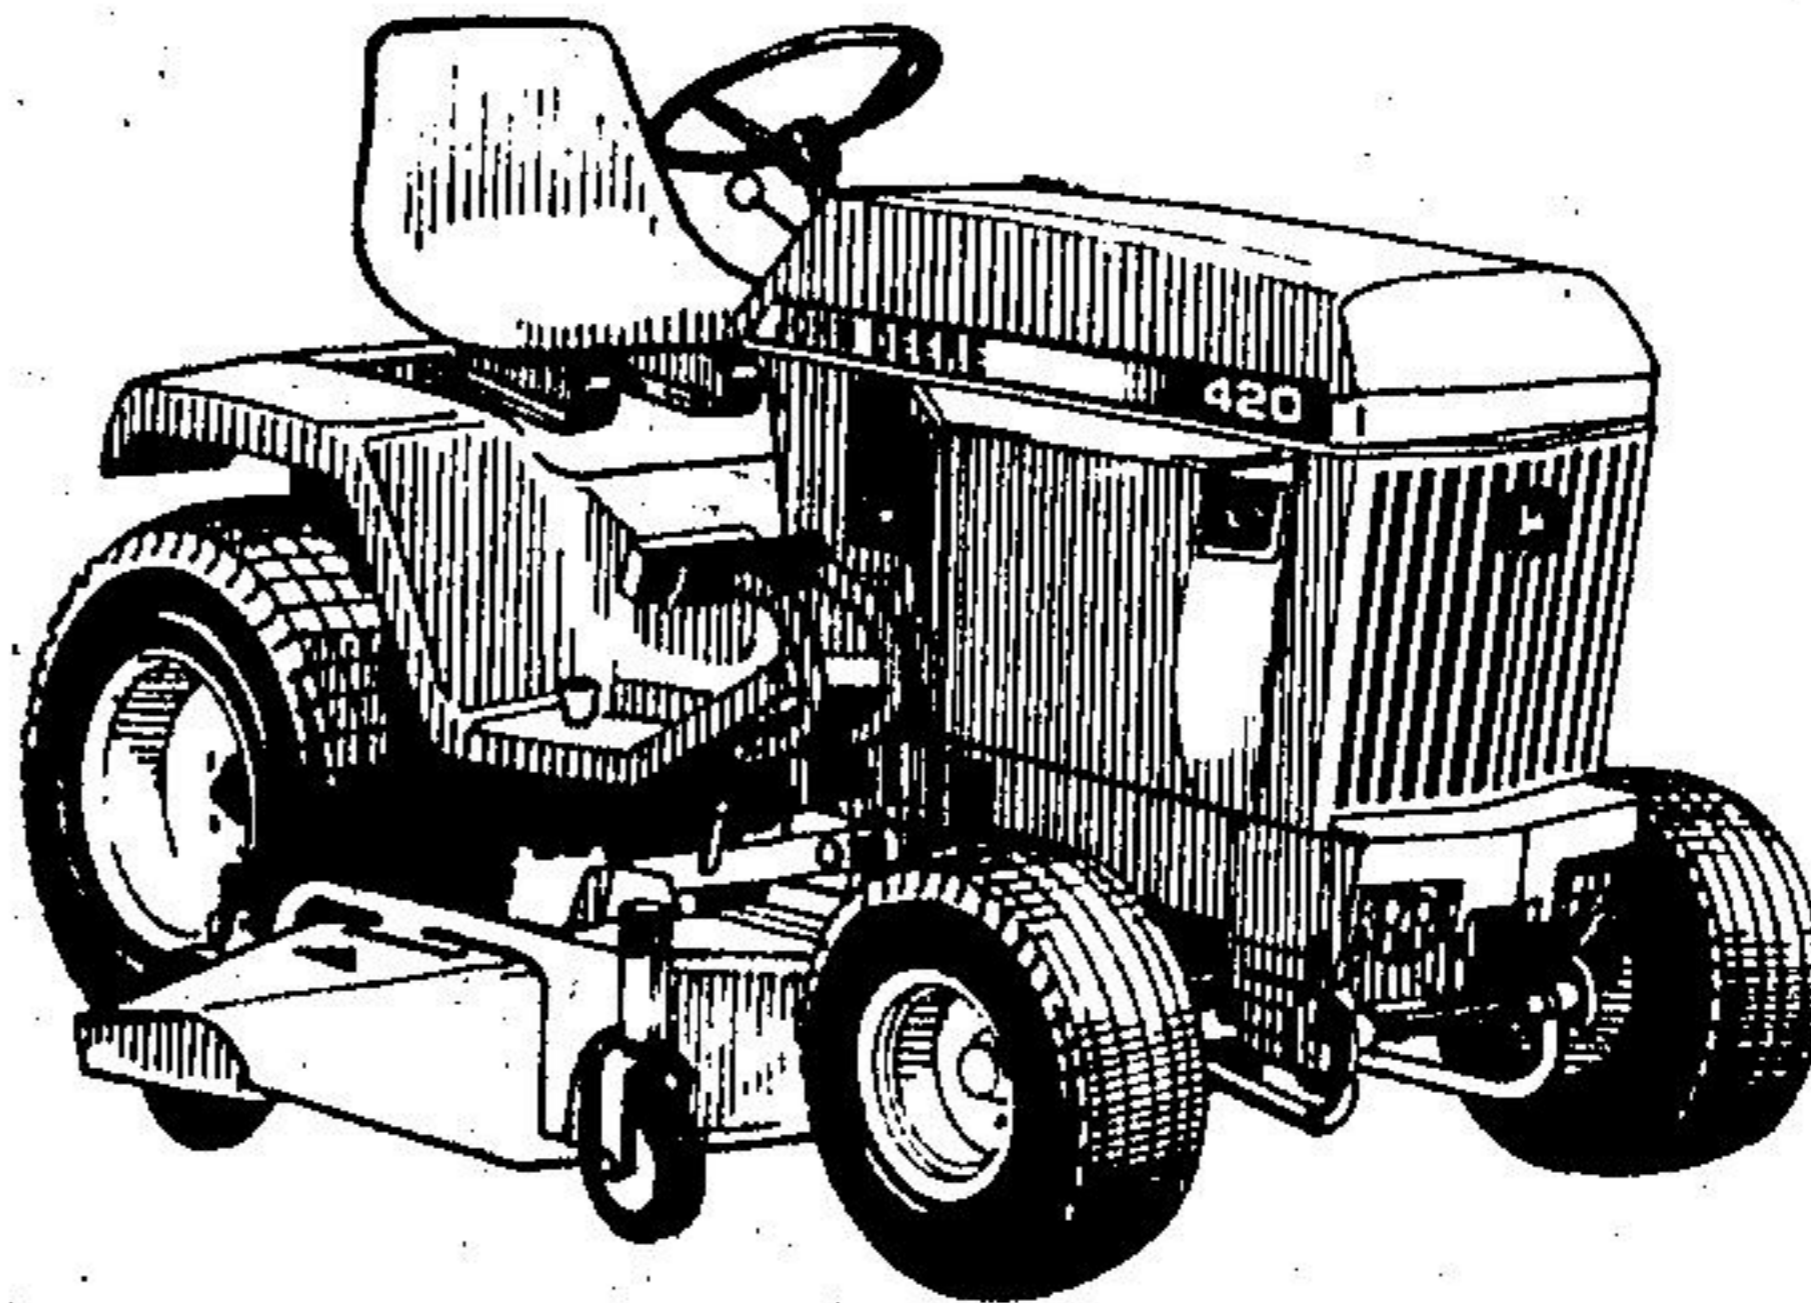

A new pillow is a small and affordable luxury, and every member of your family deserves a fresh, fluffable pillow for a sound night's sleep. Yet, many shoppers are confused by the average department store pillow department, and postpone buying new pillows. To help you with your pillow-buying decisions, here is some pillow talk from the Du Pont Company, which protects consumers with its unique pillow certification program.

### REPLACEMENT ROOF DESIGNED TO LAST

Some things are irreplaceable. Your roof, however, is not one of them. When re-

roofing is in order, be sure to select a roofing material that provides year-round protection, excellent weather resistance and lasts many years with only minimal maintenance, such as asphalt shingles.

# SAVE UP TO \$500 ON A NEW JOHN DEERE LAWN AND GARDEN TRACTOR

**DOWN TO EARTH VALUES**  
ON THIS YEAR'S **PICK OF THE CROP**
