## A NEW PROPERTY TAX EXEMPTION

to help Disabled and Seniors live at home.

**Why was this new program introduced?**

"Many elderly and disabled people want to live with their families. However, in some cases, providing shelter requires extensive home renovations which result in increased property taxes. We must encourage—not penalize—families for their efforts to provide shelter and supportive care."

Accordingly, I am announcing today that homeowners who undertake renovations or additions, specifically to keep an elderly or disabled person at home and in the community, will be exempt from any increase in taxable assessment that would otherwise occur.

Budget Statement—May 15, 1984, The Honourable Larry Grossman, Q.C., Treasurer of Ontario.

**Does the program involve direct financial assistance for alterations?** No. The savings are in reduced property taxes each year, not in grants or loans for alterations. Under this program, the assessed value of the improvements will not be included when your property tax is calculated, providing the improvements were made to help a disabled or senior live at home.

**Who can apply?** Any property owner who makes improvements to accommodate people who are 65 or over and those of any age with physical or mental disabilities that would otherwise require them to live in an institution.

**Can only the family of a disabled or senior person apply for this exemption?** Not necessarily. For example, you may wish to make improvements to accommodate a friend in your home. Moreover, disabled or seniors can apply for the exemption directly, if they make alterations that will enable them to continue living in their own homes.

**What about group homes?** Non-profit group homes can apply, but only as long as their improved accommodations do not exceed three residential units. Larger institutions operating multiple facilities to care for the disabled or seniors are not included in this program.

**Can commercial properties qualify?** Yes, in some cases. For example, a family operating a retail store could apply for the exemption if they make improvements to an apartment upstairs for the accommodation of a family member or friend who would otherwise be compelled to live in an institution.

**What types of home improvements qualify?** Any addition, improvement or alteration specifically related to the needs of the disabled or senior resident qualifies for this new exemption. These may include such features as special bathroom modifications or additions to an existing home. (Please note: general repairs and maintenance do not increase assessment anyway.)

**Does the exemption apply to changes underway or completed before the program was announced?** Only alterations started after May 15, 1984 when the program was announced will qualify for the property tax exemption once the work has been completed.

**How long will the exemption apply?** The tax exemption continues as long as the senior or disabled person uses the property as their principal residence.

**How do you receive this new property tax exemption?** The first step is to call your local Assessment Office at the number listed below. To avoid any possible disappointment, please contact us before finalizing your plans. We look forward to discussing the program in greater detail.

Please talk to your local Assessment Office. We're anxious to help.
