CABINETS

### St. John helps us

Cramps can be caused by cold water, excessive loss of salt and body fluids and by poor coordination in exercise. St. John Ambulance advises that the first aid treatment is to stretch the contracted muscle gently. For instance, if the cramp is in the calf, straighten the knee, holding it down with one hand while you lift the foot toward the shin with the other hand.

FIN CONSTRUCTION PRICES FROM  
**\$81,900<sup>00</sup>** SUMMER OCCUPANCY
