MINI PROFILE:
RUBY BAILEY
A member of the Ladies Auxiliary for the past 29 years Ruby comes from a family that was and is Legion Service oriented. Her father having served in W.W.I helped in the organization of Branch 120 of Georgetown.

Her mother, an auxiliary member of 54 years, also served as President of the Port Colborne Ladies Auxiliary before transferring to Georgetown. The late Jan Emerson, her sister, was President for two terms here in Georgetown.

From 1957 to 1959 Ruby was President of the Ladies Auxiliary in Long Branch. Moving to our fair city and transferring to this Auxiliary Ruby served her fellow comrades as First Vice President from 1979 to 1983. She has used her expertise, gained over the years, to chair, convene and help on many committees and has been Funeral Convenor for the past four years.

George, her husband, is also a longtime Branch member. A mother of two children, a grandmother of five, she still has time to indulge her home handy man hobbies of car repairs, house repairs and of course crocheting and knitting for her family, friends and our bazaar.

Alaska travels

By WINIFRED SMITH
Herald Correspondent
BALDWIN—Tom and Lillie Given have arrived home after a two-week tour of the Yukon and Alaska.

Flying to Whitehorse, they took in the fantastic follies show and the museum.

In Dawson City they visited the cabin of Robert Service, also the family home of Pierre Burton which is just across the road and the Klondike gold fields at the Bonanza Creek which they found interesting.

Then on to the beautiful mountainous terrain to Tok, Alaska. They also went to Valdez by boat to the icefields. Ten to Anchorage which is a very large city. The weather was warm and it never got completely dark.

The tour ended with the visit to Butchart gardens in Vancouver. The couple said they had accomplished what they had always wanted to do, that this was trip to be remembered.

Heritage tractor

By KAY WILSON
Herald Correspondent
NORVAL—We forgot to mention the Hart Power tractor John Brander drove at the Holstein Heritage Day in the Norval news last week.

John restored this tractor which had been owned by the late Floyd Downs which he used for threshing doing custom work for farmers. Before this tractor, in the years 1923-26, Floyd had a steam engine and a water tank, which was needed to fill the engine with water.

This was an exciting time for children, when threshing time came along and we would be watching for this huge steamer slugging up the road, pulling the water tank and the threshing machine.

However, our parents had extra work. Dad would phone the neighbors and ask for help as you always exchanged help at threshing time. Mother would have extra men to sleep over, as well as for breakfast and then dinner and supper for 15 men more or less.

It was nothing for men to have three or four pieces of pie, after their first course.

I can remember them leaving the water tank at the road overnight and taking it up to the spring creek in the morning to fill with water for the threshing which would probably last two or three days, depending on the amount of crop and the weather.
