## TRIVIA

Star-Station

Mauna Kea, on the island of Hawaii, is an astronomer's dream. Rising 4,200 meters (14,000 feet) out of the Pacific Ocean, it holds six telescopes above nearly half the Earth's atmosphere and most of its water vapor. There are no nearby landmasses to create the atmospheric turbulence that distorts star images in most telescopes. National Geographic reports.

## \$85,500 NEW HOMES

3 bedroom bungalow in beautiful area — single garage. Spend Christmas in your new home — For details call Ellen Hogg.
