

Firm hires 32 workers

By ROBIN BAKEWELL
Herald Staff

Frank Heller and Company Ltd. has accepted a contribution of \$232,300 from the Canadian Industrial Renewal Board (CIRB).

The money will be used to help modernize its production equipment which will improve the company's productivity in its factories in Acton and Georgetown.

Company vice-president, Ron Heller, said it has not been completely narrowed down yet as to how the money will be spent but it will be used, "in order for us to be competitive not only in Canada but around the world."

The contribution from the CIRB represents one quarter of the \$614,000 Heller will invest in the Acton plant and a \$195,000 investment in the Georgetown operation.

Through the investments an additional 32 new jobs in Acton will become available and an additional four jobs in Georgetown. While the company has done some hiring there is expected to be more factory jobs available in the future.

The 40 per cent of products now exported to the U.S. "has to increase" according to Mr. Heller.

A previous CIRB contribution of \$20,175 was used by the company as consulting fees to confirm the company's readiness to invest in its own expansion.

The CIRB was designed in October 1981 to promote the restructuring and modernization of the textile, clothing and footwear industries.

Cries foul over noise

By ANI PEDERIAN
Herald Staff

Loud noise, foul language, trespassing and damage experienced by a neighbor of the M.Z. Bennett baseball diamond is going to be studied by the town's recreation director.

Tom Shepard told town councillors Monday night that he will be looking into the problem and considering realigning the baseball diamond this fall.

Robert Crawford of Acton's Norman Court home is adjacent to the extensively used diamond, about 50 feet from it.

He told councillors noise from the games makes it impossible for his family to enjoy their garden.

"It gets a little tiring after a while, especially if you've been working all day and come home at night to a situation that's unbearable," Mr. Crawford said.

Although he has a five foot tall fence around his property, baseball players climb over it to retrieve foul balls. In doing so, Mr. Crawford said they damage the shrubbery and his property.

"Indeed, we have been subjected to verbal abuse when we politely requested players to leave our property," he said.

On several occasions, members of the family have been struck by a baseball, Mr. Crawford said.

The recreation director confirmed that the baseball diamond is a heavily used one, with games every weekday from 5:30 p.m. to 8:30 p.m. and all day Saturday and Sunday.

Although there are five ball diamonds in Acton, only three of them are good enough to play on, Mr. Shepard said. With 35 teams demanding playing time, the diamonds get used extensively. He said 19 adult teams use the field next to Mr. Crawford.

"Perhaps if the new field at Prospect Park is put in, it will alleviate the situation, or it may get more teams that will want to play," Mr. Shepard said.
