

Hallowe'en spirits in Halton Hills

Shannon Marshall, Jennifer Robinson and Gina Brown get set for Hallowe'en by displaying what some youngsters may wish to dress as for the occasion. The three Grade 11 students at Georgetown District High School are part of the dramatic arts class.

Barney the Beaver, safety mascot for the TTC, fascinated children on Sunday as part of Chudleigh's Apple Farm's Hallowe'en program. The activities at the farm were presented to kick-off the national UNICEF Hallowe'en fund raising campaign to benefit needy children around the world.

Wants wood pallet permit

Approval is pending on the request by Murt Allison to operate a wood pallet manufacturing operation on part of Lot 24 Concession 8.

After a decision is made on the request for a development permit by the Niagara Escarpment Commission, Mr. Allison's request will be referred to the town's Official Plan Advisory

Committee for review. The operation involves the repair and manufacture of wooden pallets, also known as skids.

It has been going on for some 10 months and the application is being made to legalize the land use.

Although in the new Halton Hills Official Plan the land is designated Niagara Escarp-

ment Scarp Protection Area, wherein the permitted uses don't include what Mr. Allison's operation does,

there is provision, however, in the Escarpment Plan for "existing" uses to be recognized as permitted.

World youth exchange

CANADA WORLD YOUTH'S exchanges start in June, July, August and September. Deadline for applications is Jan. 15, 1985.

More information is available from Canada World Youth, Ontario Regional Office, 627 Davenport Rd., Toronto, Ont. M5R 1L2.
