

PRINTERS

EPSON

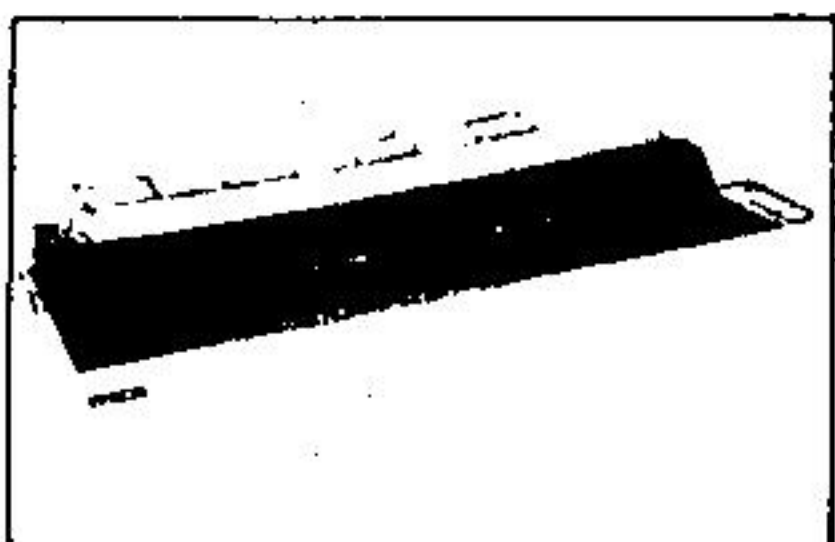

RX-80 \$399.00

The Epson RX-80, 100 cps, 80 column dot matrix printer is the entry printer in the Epson family of quality performance. The RX-80 offers bi-directional with logic seeking printing, centronics parallel interface, 128 different user selectable type styles, and pin feed paper supply.

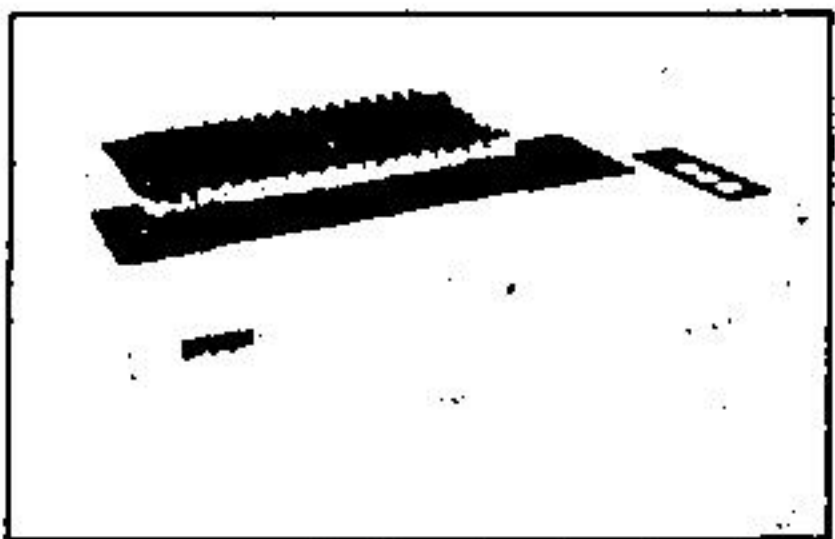

RX-80F/T \$480.00

The RX-80F/T has all the features you get on the RX-80 plus the RX-80 F/T features both friction/tractor paper feed to allow a variety of printing uses. The RX-80F/T also uses the same 9x9 dot matrix print head as the RX-80 does. A printer priced right for all occasions.

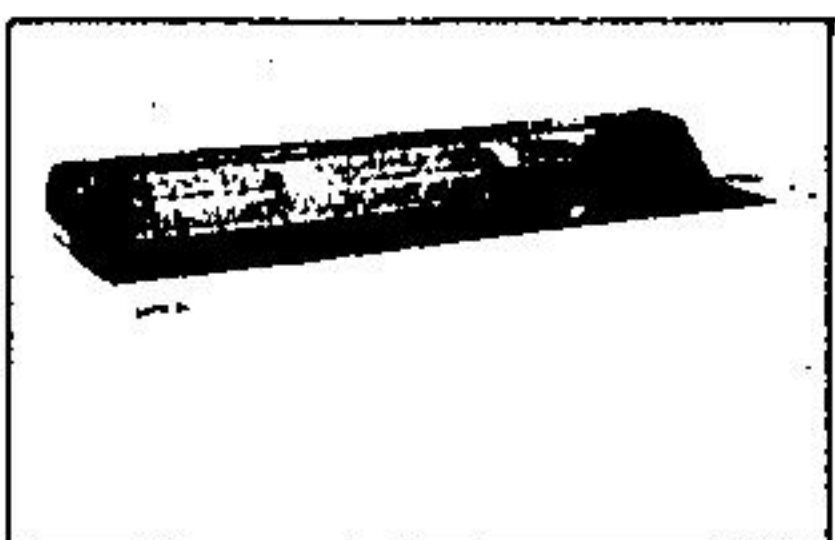

RX-100 \$610.00

On the RX-100 you get both friction paper feed and a removable tractor bar for pin-fed paper, as well as 100 cps print speed. The RX-100 features a wide body carriage (136 columns) which allows spreadsheet print outs with plenty of paper to spare. Same features as the other RX series offers plus more.

FX-80 \$649.00

An amazing 160 cps, with a 2K data input buffer and 12K ROM capacity, the FX-80 can give 7 different dot addressable graphic modes. You can use fanfold, roll or sheet paper. Even a reverse line feed! Even pre-printed forms - like cheques or tax returns are a piece of cake.

FX-100™ \$999.00

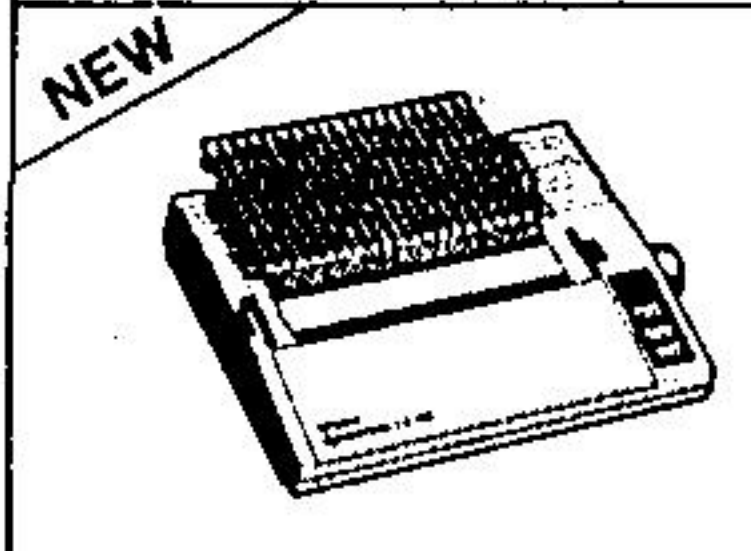

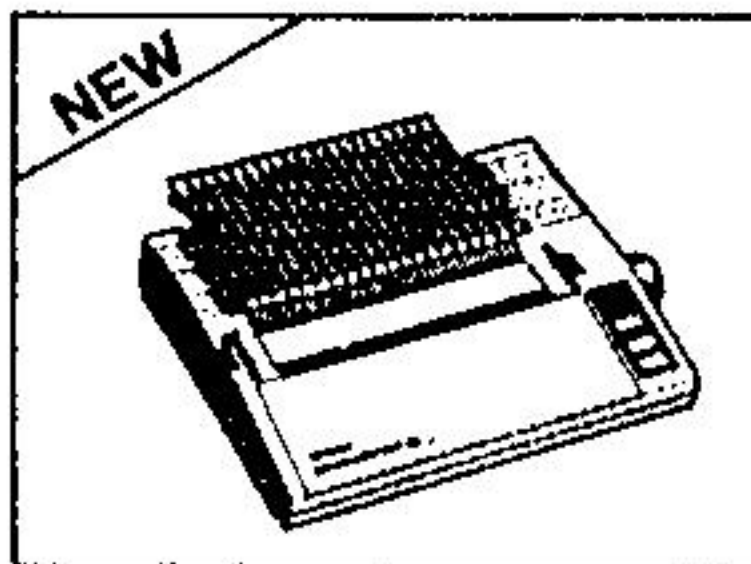

The Business Printer

Spectrum LX-80 \$449.95

Epson's economical new printer. Ideal for personal and business printing needs.

801 GRAPHIC PRINTER

The 801 printer is an 80 column, bi-directional, dot matrix impact printer for creating printouts and hard copies from the VIC 20 and C-64 computers. It is an intelligent device containing its own microprocessor.

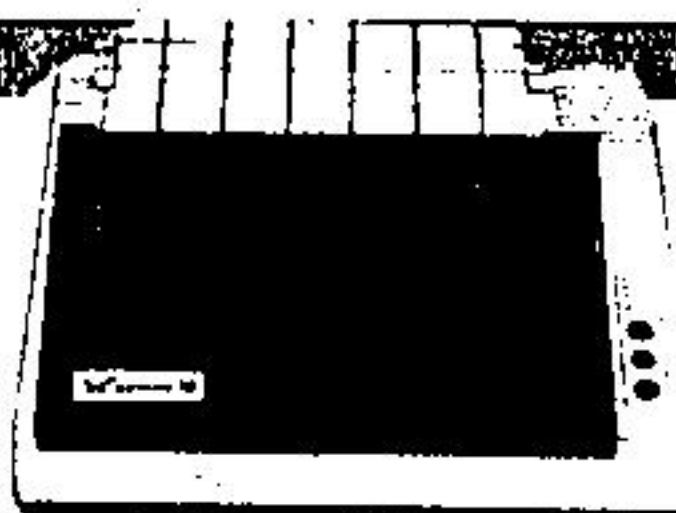

\$233.00

DPS 1101

The Commodore DPS 1101 is a true letter quality printer. This daisy wheel model is compatible with the SFS 481 and the Commodore Plus/4. It has a 13" maximum width and prints at 18 CPS. For true letter quality reproduction, the Commodore DPS 1001 is the right choice.

\$529.00

Star
MICRONICS, INC.

GEMINI 10X & 15X PRINTERS

Now from Star, there's a series of dot matrix printers that offer not only an astounding array of features—but also a price well below that of competitive printers. The Gemini 10X has a 10" carriage and the Gemini P15X, a 15 1/2" carriage accepting paper up to 15 1/2" wide. Plus the Gemini 15 has the added capability of a bottom paper feed. Superior quality is the hallmark of every Star Printer. Quality that assures you of: 100 cps print speed; a throughput time of 48 lpm—virtually a page a minute—at 80 columns; 9 x 9 dot matrix (with the true lower case descenders); high-resolution bit image (120 x 144) and block (6 x 6) graphics; bi-directional, short line logic seeking carriage control and low acoustic noise level.
