MicroPro 399⁹⁵

WORDSTAR

A versatile, sophisticated easy-to-use word processing program for microcomputers operating under CP/M. Features include: easy to understand help menus; horizontal scrolling; column move; simultaneous printing of one document while editing another; powerful editing commands for insertion, deletion, moving and copying text with a document or reading and writing text to and from different files; word wrap (eliminates the need to enter a carriage return after every line); dynamic page break display shows page end on-screen via a special indicator; print enhancements such as boldface, double strike, underline, strikethrough, super and subscripts, variable character pitch; variable line height, alternate type style or ribbon color can all be done; flexible formatting allows user to choose ragged right, right justified or a combination of both types of right margin; decimal tabbing to automatically line up the decimal points in columns of numbers.

ASHTON-TATE

FRAMEWORK

Delivers all the important software applications a manager or professional could ask for. Including the world's best idea processing, word processing, electronic spreadsheet, DBMS, and automatic graphics.

749⁹⁵

D BASE III

Can handle over a billion records per file, limited only by your computer system. You can have up to ten files open, for sophisticated application programs.

649⁹⁵

**Lotus
SYMPHONY**
