WHOLESOME..

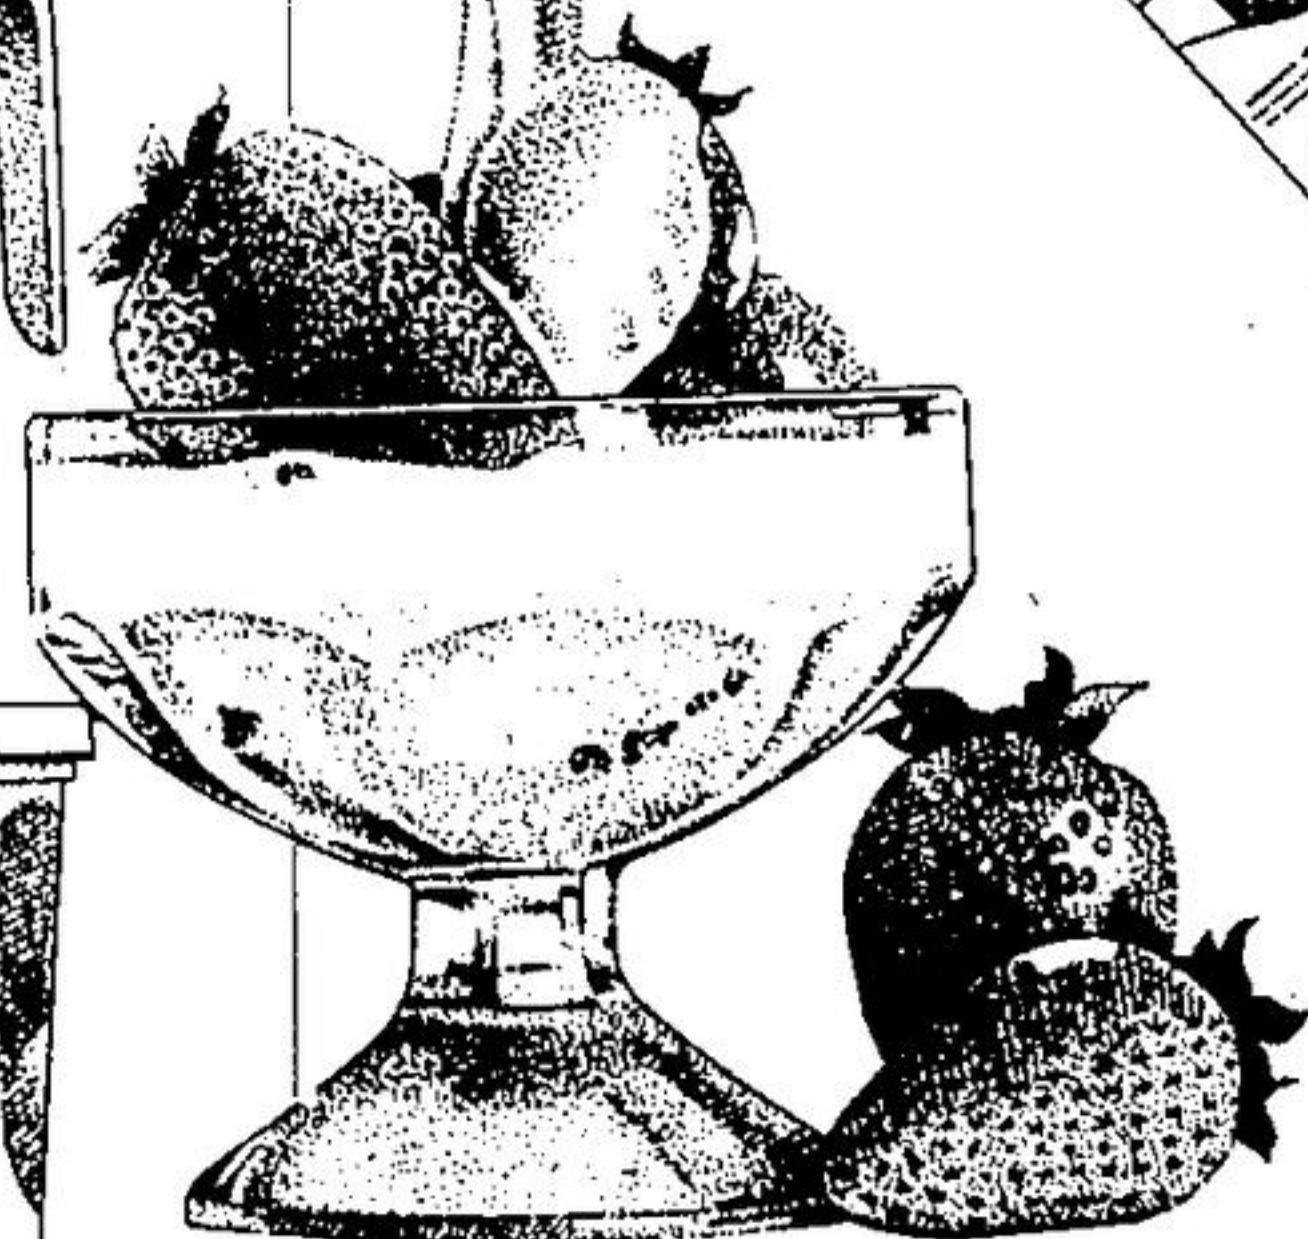

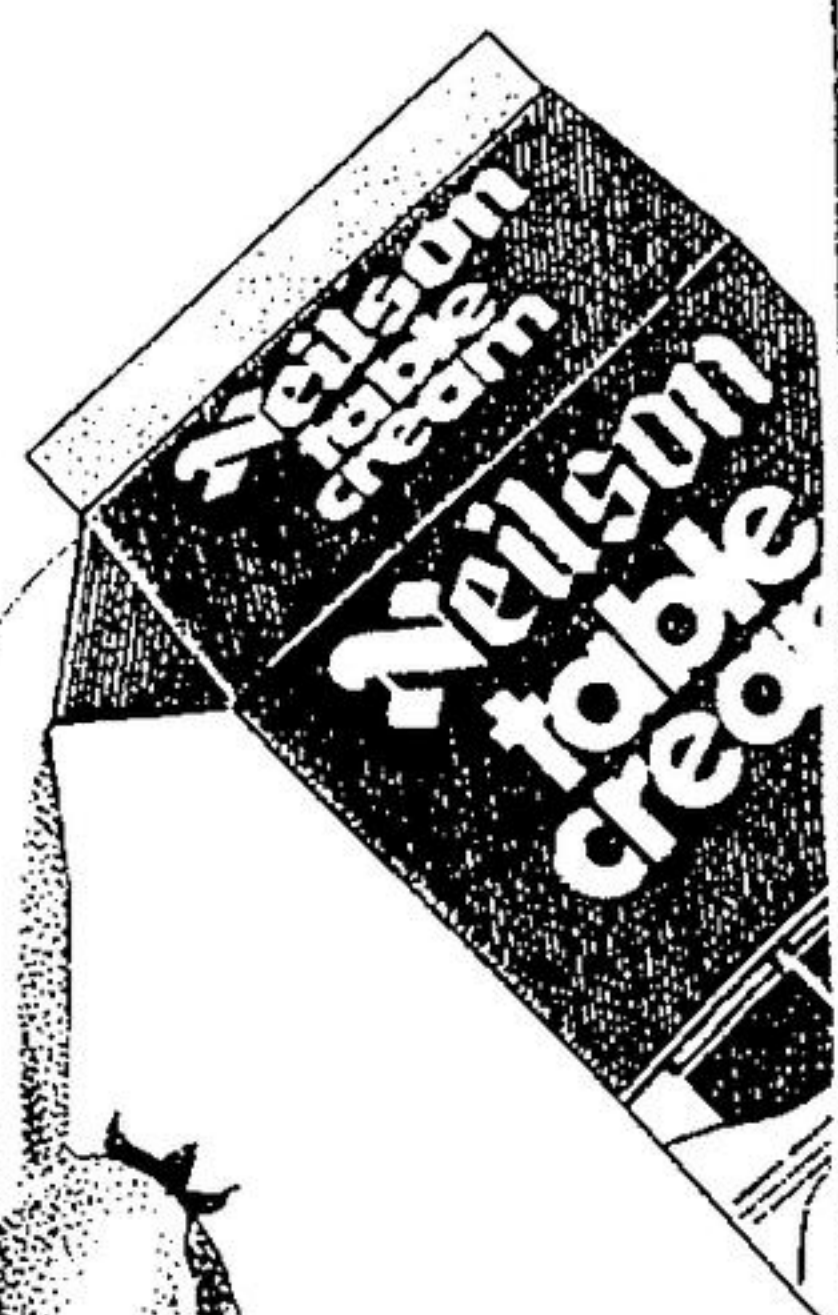

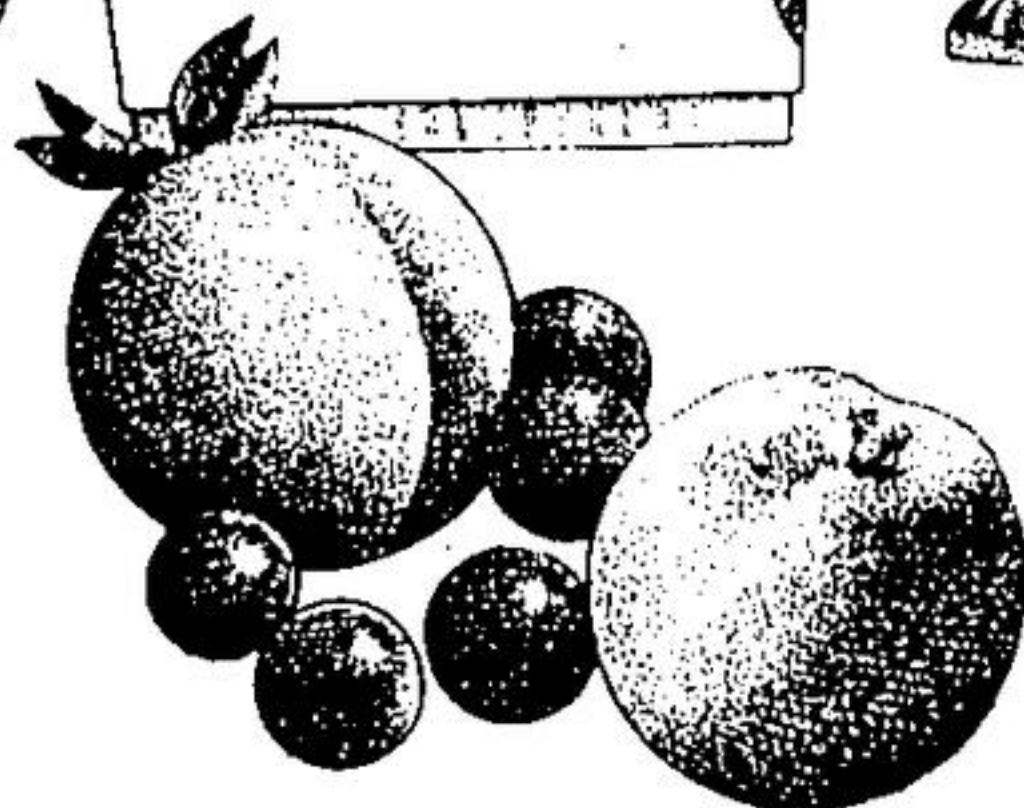

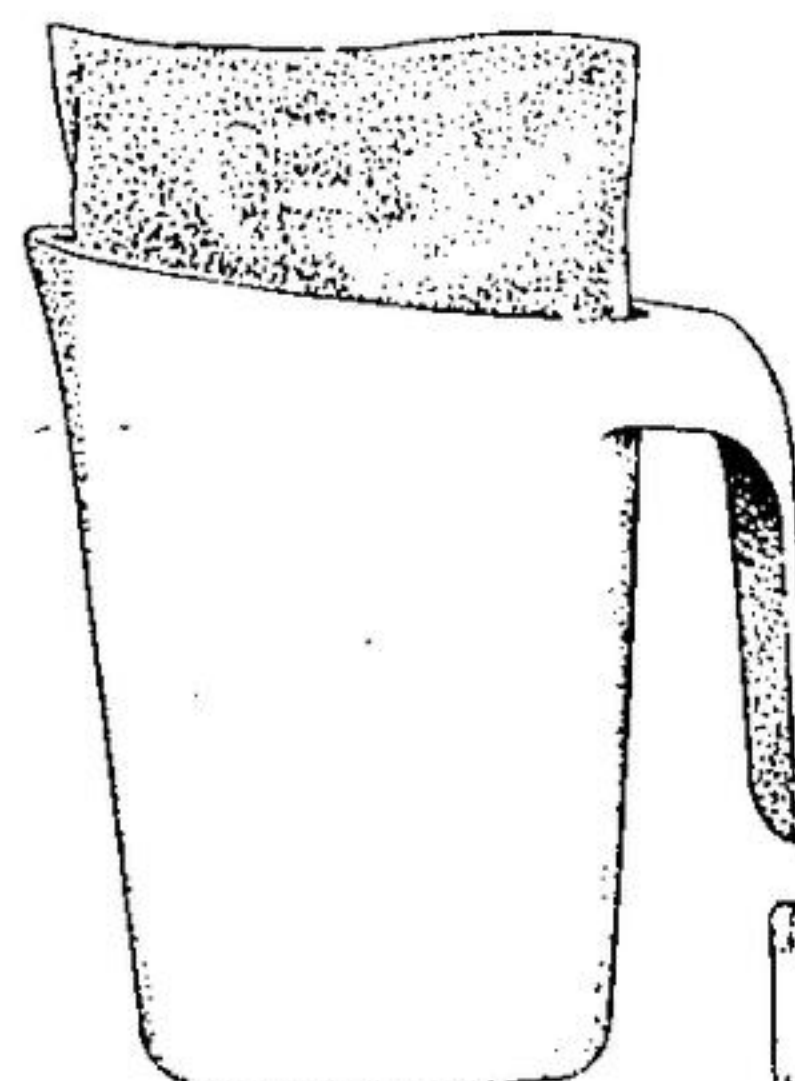

AND THEN SOME

WHY are Neilson dairy products so fresh? Because they all have the same fresh start . . . in the country . . . from fresh wholesome milk.

It was the start of Neilson products in 1893. And it's the most important ingredient in the Neilson products of today.

You can count on us for fresh ideas, too. Like yogurt and a cottage cheese that's the creamiest you've ever tasted.

So for wholesome good taste in a wide variety of dairy products, take home Neilson. And take home the best.
