

## What's cooking in kitchens?

Looking for a way to spark up your kitchen? One of the latest decorating ideas is adding a hardwood floor. Wood flooring is the perfect "canvas" for any decorating theme ranging from rustic to contemporary.

It is no wonder that in this urban age of ribbon development, burgeoning cities and mushrooming housing, quality has become precious and rare. Wood flooring is a quality investment that will last a lifetime with proper care.

Europeans have always favored wood in their kitchens. What is surprising is the extent to which the urbanites have foregone plastic and metal to emulate the sophisticated warmth of a kitchen with a wood floor.

But what about care? With the advent of modern manufacturing techniques for floor finishes, wooden floors have become as simple to keep up as vinyl.

Wood floors require only regular sweeping or vacuuming, and waxing once or twice a year. Spills should be wiped up immediately and dried spills removed with a slightly damp cloth.

Bruce Hardwood Floors utilizes an exclusive 13-step finishing process to assure a durable, easy-care floor, a floor that will take years of abuse, stand up to heavy traffic and keep coming back beautifully.

## Home repairs scam

Continued from page C7

Under the Construction Lien Act, you are required to hold back 10 per cent of each progress payment until 45 days after the job is finished. This ensures you cannot be held liable if the company doesn't pay suppliers for materials.

Consumers who feel they have been unfairly or dishonestly treated by a company should contact the nearest Consumer Services Bureau

of MCCR.

The ministry has published a booklet on handling home renovations. For copies, contact the Consumer Information Centre, 555 Yonge Street, Toronto, Ont. M7A 2H6, (416) 963-1111 or, toll free, 1-800-268-1142. Ontario residents with an 807 area code may call the 416 number collect.
