Discover Your Denturist

Why Denture Awareness Month?

Why Denture Awareness Month? Simple. Those most affected by changes in the health professions are generally not aware of the protection denture wearers now have.

At one time if you needed dentures you could buy them only through your dentist.

Legislative changes in 1974 have taken denturists out of the closet. They now serve the public directly and economically. Many simple consultations are free. Denturists are licensed, extensively trained, regulated by their own Provincial Governing Board, members of their own professional association and bound by a strict Code of Ethics.

Denture Awareness Month is designed to let the public know that they can now turn directly to their local professional for advice on existing or new dentures.
