RENT REVIEW UPDATE FROM THE MINISTRY OF HOUSING

Now there's a Rent Registry for all private rental units in Ontario.

One of the most significant features of Ontario's new rent review system is the establishment of a computerized, province-wide *Rent Registry*. Until now, it was often difficult for tenants to verify that their rents were legal. The new *Rent Registry* will record the maximum legal rent which can be charged for every private rental unit in the province. When the registration process is complete, this information will be available free of charge to tenants, prospective tenants and landlords.

Rent information will be updated annually.

Landlords of all private rental units in the province will be required to register their rents with the new Registry.

When the landlord's units are properly registered, the Registry computer will automatically update the rents each year.

The Registry will record rent increases from either the Guideline amount or, annually or by the amount decided upon, a rent review decision.

Landlords will soon receive registration kits.

Landlords of rental complexes with more than six units are being sent registration kits with the necessary forms to be completed.

Landlords who have not received a registration kit by February 2, 1987, should phone or visit their local Rent Review Office.

Landlords of smaller complexes can also obtain registration kits by calling their local office.

Landlords of residential complexes with more than six rental units must register by May 1, 1987.

Landlords of complexes containing more than six rental units have until May 1, 1987, to register information about their units with the new *Rent Registry*.

Landlords of smaller complexes containing six units or less, as well as boarding houses and lodging houses, will be notified by the Ministry of Housing of a specific registration deadline at a later date. These landlords are encouraged to file with the *Rent Registry* as early as possible.

Landlords are required to file with the Registry the actual rent that was charged on July 1, 1985, for every rental unit in their complex.

Most landlords will only be required to register once.

How tenants can verify their rents.

When the rents for a building have been registered, the Registry will notify the landlord and the tenants of the rent information which has been recorded for their units.

The Registry will also advise the landlord and tenants of the time limits for making applications to challenge or certify the actual rent that has been recorded.

Registry information will be easy to obtain.

As there are more than one million rental units in the province, rent registration will take some time.

When the registration process is fully completed, information from the Registry will be available by toll-free telephone or by visiting a local Rent Review Office.

For more information and landlord registration forms, call toll-free 1-800-387-9060, or phone your local Rent Review Office.
