

# Sports Outlook

## Juggling anyone?

There is still time to sign up for the juggling workshop planned for Tuesday night, sponsored by the Halton Hills Recreation and Parks Department.

Franklin Hargraves of Wilno has been booked to conduct the workshops at the Cedarvale Community Centre. Hargraves is well known as both a juggler and magician.

Two sessions have been planned, one beginning at 7:30 for children, and another at 8:30 for adults.

### Free skating

There will be free skating at the three arenas during the March Break. If you would like additional information of the skating times please contact the arena nearest you.

If there are not enough participants to fill the two workshops, they may be combined into one. For more information, contact the Recreation and Parks Department at 877-5185, ext. 260.

## Leisure Lines

Choosing the right Summer Care Program for your children can be a difficult task.

It is important to our Department that your child has an opportunity for an enjoyable and stimulating summer experience.

All of our programs allow for social interaction, a learning environment for new games, crafts, and special events. Most importantly we share your concern for your child's safety.

We want your summer to be worry free so all of our staff must attend a week of extensive training. Most of our staff have already completed our Department's Leadership Training Program and all have experience in working with children before they are even considered for employment with us.

Their week of training consists of lectures and "hands on" sessions in program planning, understanding child behaviour and development, problem solving, working with special needs children, and leading practical activities of games, crafts, sing-alongs and drama.

All of our summer care staff are required to have an emergency first aid certificate.

They are sincere, energetic and capable people who look forward to their position as a play leader for your children.

All of our programs have a minimum of two leaders per site and our maximum ratio of participants to staff does not exceed 1:5 for Tot Lots or 1:10 for all other programs. Leaders in Training are also present to further reduce these ratios by providing assistance.

Parents are welcome to stand and observe for their own piece of mind.

Our Department has strived to accommodate both working and non working families with our provisions of extended hours for child care, supervised lunch hours, day and half day passes, family discounts, as well as summer long discounts. All of our programs are subsidized by your tax dollar so that you can afford to give your child a memorable summer.

Working parents may claim program fees as a tax deduction for child care expenses.

Our Department feels that every child should have an opportunity at the benefits of our summer programs. Financial assistance is available for those families in need.

Parents of disabled children can also be assured their children will be cared for by competent leaders who have received additional special needs training. Our staff to participant ratios is increased at programs where disabled children are participating.

This year we have planned many exciting and original programs for your children right here in your community, including: Make A Movie, Theatre Camp, Studio Art Camp, Athletic Adventures, Sports Camp, Day Camp, Leadership Development, Summer Activity Centres, Tot Lot, Hiking Trip, Bus Trips, and Tennis Camp.

If you would like additional information on our programs or staff please call your Recreation and Parks Department at 877-5185 ext. 260.

## Optimist minor peewees split close encounters

The Georgetown Optimist AA Minor Peewee squad had a couple of close games recently, as they compete in Tri-County round robin playoff action.

A match with Flamboro proved to be a fast-moving affair, with end-to-end action.

Georgetown opened the scoring midway through the opening period, but Flamboro came back with three quick goals in the second.

Georgetown rallied in the third, but ran out of time as the final score showed 4-3 in favor of Flamboro.

Scoring for Georgetown were Andrew Elliott from Ken Kosziwka, Kevin Patrick from Steve Wright and Shawn Curry, and Ryan Kurnell, assisted by Wright and Curry.

For their next game, the peewees travelled to Dundas, and found

themselves in another squeaker, only this time the result was more favorable, as Georgetown held on for the victory.

Once again, Georgetown was first to find the scoreboard, as Steve Wright scored from brother Jeff and Shawn Pearson. Then, it was Jeff's turn, as he scored from Steve.

Dundas stormed back to tie the game at two, but Georgetown again went ahead when Curry scored from Jake Mashiter and Shawn Pearson.

The game winning goal came at 12:03 of the final frame when Tim Presswood popped one in from Curry and Kurnell.

Dundas added one meaningless goal to round out the scoring, leaving Georgetown with a 4-3 win.

Both Tommy Dlardchuk and Marc St. Pierre played well in each of the games, making key saves in net for Georgetown.

### A Look Back

QUESTION  
What type of injury kept Bob Goldham out of the Detroit Red Wings' line-up on "Rob Goldham Night" in 1955, and what gift did Mayor Jack Armstrong present to Goldham on behalf of Georgetown?

ANSWER  
Goldham was suffering from a foot injury he sustained in practice, and he was presented with a movie camera and projector by his hometown.

# The Future Looks Bright!

## FOCUS '87

A lightbulb can make the difference between darkness and being able to see.

Like the electricity that powers the lightbulb, so too, does progress power our community and brighten our future!

Any community, large or small, would dim and die without a bright future — a future sustained by the power of progress.
