

Motor league disappointed at government drinking laws

The nine member Provincial Government Advisory Committee report on Ontario's liquor system and laws is most disappointing ac-

ording to Al Oakie, President of the Hamilton Automobile Club. "It will discourage all those local anti-drinking-driving community

groups which have, at the urging of the Provincial Government, worked so diligently to change people's attitudes towards drinking and driv-

ing." The report calls for sweeping liberalism of our liquor laws including increased availability, at a time when Governments and the public generally have expressed great concern about drinking problems and its effect on driving as well as society generally.

"On the other hand, this same progressive attitude was not considered when the committee dealt with the recommendations made by HAC and

many other safety organizations to adopt the practice common in almost all the States south of the border to raise the minimum age to

twenty-one for the purchase of liquor. Experiences in the United States have indicated a dramatic

reduction in accidents involving drinking for nineteen and twenty year olds."
