Regular \$620.
SALE PRICE
\$570⁰⁰

Model No. 8647
With Electric Start Reg. \$797.00

The Bolens Mulching Mower performance story began over 25 years ago when Bolens developed and patented the first mulching mower. Since that time our Mulching Mower has set the standard for the industry in design, power, convenience and mowing efficiency. Today, the Bolens Mulching Mower continues to lead the pack and remains the leader by popular demand. Hundreds of thousands of satisfied Bolens customers have seen to that!

Grooming your lawn is a snap with the Bolens Mulching Mower. When the exclusively designed blade spins, it creates a suction within the chamber to straighten up the grass before the blade cuts it. Then, while the clippings are still airborne in the chamber, the multi-pitch blade cuts and recuts them before driving them in to the soil, out of sight. You save valuable raking and bagging time and your lawn receives the nitrogen and other natural ingredients it needs for strong, lush growth. The Bolens Mulching Mower performance story is a measure of the care we put into every Bolens product. When you buy a Bolens, you can be sure you've bought a mower that will outperform any other mower.
