

Hard-luck story

By James Jacoby

Six hearts was not an ice-cold contract. To begin with, it needed a 3-2 trump split. By the time declarer had mangled the play, it needed much more. South won the opening diamond

lead and ruffed a diamond. He came to his spade jack and ruffed another diamond. Then he played the club ace and ruffed a club. Now came the A-K of hearts, along with a sigh of relief when the suit split. He then led a spade to dummy, intending to pitch his remaining diamond loser on a high spade, but East had other ideas. He trumped that second spade and cashed the setting trick in diamonds.

"What luck!" exclaimed South. "It took a 5-1 spade split to beat me."

South wasn't really the unlucky one. Instead it was North, unfortunate enough to be paired with a partner who was not able to determine the safest play for the contract. If it's played

correctly, all that is needed is for the heart suit to divide. After winning the opening lead with the diamond ace, declarer should forget about ruffing any diamonds. Instead, he should simply lead a low heart. Whatever happens next, declarer can play off the A-K of hearts. That picks up all the opposing trumps, and it is now safe to run the spade suit and discard all three diamond losers.

A new book by James Jacoby and his father, the late Oswald Jacoby, is now available at bookstores. It is "Jacoby on Card Games," published by Pharos Books.
